# **Last Days!**

## **Part 6**

How many of you have ever heard of How Hillary Crashes Cars and Planes? If you have had questions over the years about the Clinton's and how they have gotten away with murder and so much more, this revelation will answer all those questions. This story has its roots in the Rose Law Firm in Little Rock, AR. The Rose Law Firm was home for so much corruption, going back to the late 1970's. The Mena, AR airport became a focus of drugs coming into this country from Columbia back in the days of William Jefferson Clinton as governor of Arkansas.

The QRS-11 GyroChip sensor is used on commercial aircraft to rotate the antenna to receive signals from satellites for the in-flight entertainment system, radar tracking and flight controls. If the aircraft is equipped with an uninterruptable autopilot, signals can be received from a satellite to remotely fly the aircraft.

The sensor provides stabilization, flight control, and guidance. It also is used in missiles, Unmanned Aerial Vehicles (UAV) and other military as well as space and industrial applications. Because of the sensitive nature of its military applications, the export of the technology is regulated.

Field McConnell alleges that the QRS-11 can be used as part of a package of technology to guide aircraft equipped with uninterruptable autopilots turning them into weapons. Field McConnell busted this fact in the events of 9/11 further down in this report.

We believe that the patent for the device was originally obtained by the Rose Law Firm of Little Rock, AR, specifically by patent lawyer Hillary Clinton, for BEI Technologies, Inc. headquartered at that time in Arkansas.

BEI has diversified many times since then and the QRS-11 is now manufactured by CST Systron Donner Inertial.

Below is information from the CST Systron Donner Inertial website:

#### QRS-11 High Performance (Military Grade) Rate Sensor

The QRS-11 is a compact, lightweight design that features Quartz MEMS technology providing a solid-state gyro offering virtually unlimited life. The QRS-11's combination of high performance and long life makes it well suited for OEM's and system integrators designing cost effective, high performance systems.

The QRS-11 requires only DC voltage inputs to provide reliable, extremely accurate angular rate measurements with the benefit of no moving parts. With a hermetically sealed sensing element, the QRS-11 has provided reliable performance in aircraft, missile and space systems across many demanding application environments.

The QRS-11 Gyro Chip was used to command and control the planes that were "hijacked" from the ground on 9/11 in order to steer them to their targets. There were no Muslim hijackers involved. All commercial aircraft since the late 1980's have been equipped with the Boeing.

The QRS-11 Gyro Chip pictured below is about the size of a quarter, about 1" tall. It has been in all commercial aircraft built since the late 1980s and is located in the electronics area below and beneath the pilot's cabin.

The name Field McConnell mentioned above has been instrumental in exposing corruption, air piracy, crashed airplanes, hijacked commercial airliners, even the Malaysian Aircraft MH370 that disappeared some four years ago. Flight MH370 was remotely hijacked and remotely flown to the US/UK island of Diego Garcia in the Indian Ocean. How do we know this with absolute certainty? Unbeknown to the hijackers, the Boeing 777 model for MH370 had Rolls-Royce engines, and the company equipped the engines with sensors and transmitters sending out the aircraft's location, altitude, and telemetry back to the UK on an hourly basis. So, even though radar and flight controllers lost sight of the MH370, the aircraft continued to communicate with satellite its GPS exact location hourly. We know for sure that it landed at the U.S. air base on Diego Garcia. It remained at the far end of the runway for two hours before taking off for destinations north.

The location of the Flight MH370 sitting on the runway at Diego Garcia was even snapped by an IBM engineer Phil Gordon, from his brand new smart phone. He snapped two photos which were sent to his girlfriend back in Malaysia. He had hidden the cell phone in the crack of his behind, and even though the photos were virtually black, they contained the GPS location to be at the far end of the runway at Diego Garcia.

An independent journalist by the name of Jim Stone broke the story on the internet within a couple days. Freelance journalist Jim Stone has claimed to have found evidence an IBM employee named Philip Woods, who was on the flight managed to send a text message with an attached black picture that contained data that showed the message was sent from Diego Garcia after the flight supposedly crashed. The accompanying text with the picture allegedly said:

"I have been held hostage by unknown military personnel after my flight was hijacked [blindfolded]. I work for IBM and I have managed to hide my cellphone in my ass during the hijack. I have been separated from the rest of the passengers and I am in a cell. My name is Philip Wood. I think I have been drugged as well and cannot think clearly."

Philip Wood was an IBM manager accompanying a team of 20 engineers and was headed to Beijing, China to meet with a Chinese company to produce a new super-fast micro-controller chip.

Strangely the blank black image labeled "1395192158752.jpg" contains the following metadata:

Device Make: Apple  
Device Model: iPhone 5  
Color Space: RGB  
Alpha Channel: No  
Red Eye: No

Stone also points out in detail how the above Exchangeable Image Format (EXIF) image data is the "smoking gun", writing:

The Exif is intact. Exif data gets embedded in every image by every camera and includes the circumstances under which the photo was taken. It can be viewed by saving the image to your desktop, and then right clicking it and selecting image properties. Hit the details tab. You can see that the image was taken on March 18 with an iPhone 5, with the ISO at 3200 and a shutter of 1/15. The coordinates are included in the exif data because the iPhone knows where it is, and the coordinates are for Diego Garcia. THE FIRST TIME A BLANK PHOTO SAID IT ALL.

Exif can't be rewritten with common software, it can only be added to in fields such as image credits with some advanced applications. It can be erased as well but NOT CHANGED. Photos with the exif intact will hold up in court. If the Exif is hacked and this is not real, the CIA or a really good hacker did this, which I doubt, I'd say it's probably real.

Another smoking gun is that the voice recognition software put the word personal instead of personnel. This is completely consistent with a blind software assisted dial out.

I have followed the story of the MH370 missing Boeing 777 from the first reporting of its disappearance. Every day forward from the disappearance I would check the internet for the latest reports and speculations. As many as ten reasons were circulating in the weeks that followed as to the disappearance or the whereabouts of MH370. All of this said brings me back to Field McConnell, host of the web site Abel Danger.net.

Retired Lt.-Col. Field McConnell was a U.S. Marine pilot flying F-4's during Viet Nam; A U.S. Air Force reserve pilot flying F-16's for the North Dakota Air National Guard; and a commercial pilot for 29 years with Northwest Airlines. Field McConnell was also part of a program whereby retired aircraft could be flown by drone power for pilot target practice training. His experience with the drone remote-controlled flight brought him into knowledge of the QRS-11. One of Field McConnell's class-mates at the Naval Academy (class of 1971) was one Charles (Chip) Burlingame, one the pilot of American Airlines flight 77 that supposedly hit the Pentagon on September 11, 2001.

Field McConnell was one of the first to suggest that the planes that hit the targets on 9/11 were not flown by pilots but flown remotely by computer. In the case of the Pentagon, the trajectory and speed exceeded the capabilities of the aircraft. The speed and descent along with a 280-degree turn is greater than what commercial pilots can achieve a clear indicator the aircraft/cruise missile was controlled remotely by computer into the Pentagon. Commercial pilots when turning cannot make a smooth or seamless turn without doing what is referred to as "checking" their controls while turning. Only computer-controlled remote technology can facilitate a perfect 280-degree turn while simultaneously descending to a specific altitude! Such a maneuver is virtually impossible at its flight speed at the altitude in which the Pentagon was hit, virtually a few feet off the ground at impact.

Field McConnell has a sister Kristine Marcy who created the "Senior Executive Service" for President Jimmy Carter in 1978. Field's sister is a cohort of Hillary Rodham Clinton, and her brother Field McConnell considers her the 2<sup>nd</sup> most evil person in the government behind George H.W. Bush. Field McConnell shared the existence of the Boeing-Honeywell Uninterruptible Autopilot with his sister years before, and since with the Malaysian government authorities. Field McConnell identifies the attacks of 9-11 as a real exercise that went live.

Field McConnell has identified the British company Serco, as the "Octopus" that controls the world. Serco has run the U.S. Patent office for decades. Serco has billions of dollars of contracts with the U.S. government. Hillary Clinton was a patent attorney, and came in contact with the "droning" program courtesy of Field McConnell's sister Kristine Marcy.

The 'Octopus' is the name of a 1996 book about Danny Casolaro, an independent journalist, who was investigating a secret "shadow" government and the theft of PROMIS, a computer software program to manage pending prosecutorial actions, also known as the INSLAW AFFAIR. Danny Casolaro was suicided in the bathtub of room 517 at the Sheraton Inn

in Martinsburg, WV. The book was co-authored by Kenn Thomas and Jim Keith in memory of Danny Casolaro's work.

This secret "shadow" government has since been identified by "American Intelligence Media" as the "Senior Executive Service".

Field McConnell states the original alleged hijacked commercial airliners were directed to the air space known as Whiskey.386.Alpha, or W386A, 60-miles east of Norfolk, VA., where the hijacked planes were vaporized.

The QRS-11 was introduced as a security feature to prevent hijacking of commercial aircraft, in the 1980's. A hijacking attempt could be thwarted by pressing a button that would activate a remote control on an airliner and prevent any hijack attempts. It was weaponized and has since been used to bring down a number of commercial aircraft. The important point of this is that anything that moves, i.e., plane, helicopter, boat, truck, bus, car, train, has a QRS-11 or later version of the QRS-11 installed in the onboard electronics.

In the last few months of 2018, it has since been discovered that Hillary Clinton has the "Keys" to the Internet. She possesses the "keys" or codes that can access any computer in the U.S. network. In simple terms, Hillary Clinton can hack into any U.S. computer and modify, add, delete, or destroy its contents. This was discovered by Michael McKibben, CEO and Founder of Leader Technologies. Leader Technologies has a \$1-trillion dollar lawsuit against the U.S. Government, under the "Miller" Act. For theft of proprietary technologies stolen from the U.S. Patent Office by the CIA.

Leader Technologies shows how the U.S. government stole its social networking inventions through James P. Chandler, who was also Bill Clinton's intelligence advisor. The timeline also reveals a disturbing pattern of collusion among rogue elements of the FBI, NSA and CIA with private industry that included former director Robert Mueller. Mueller is now leading the ever-expanding Donald Trump Russia collusion witch hunt.

Leader Technologies investors invested \$10-million and decades of time to produce the real "Social Media" known today as "Facebook" by one Mark Zuckerberg, a Harvard drop-out. Facebook was stolen by the U.S. Government Patent Office and the CIA. The full details on this can be read at [themillenniumreport.com/2018/08/leader-technologies-files-trillion...](http://themillenniumreport.com/2018/08/leader-technologies-files-trillion...)

Hundreds and perhaps thousands of patent applicants have had their inventions denied or stolen by the Serco-run U.S. Patent Office in the name of "National Security" since the government has the access to determine if a patent applicant's invention could be used by the government.

The report information that follows shows the connection between many of the parties mentioned up to this point in the article.

MEET THE PERSON WHO CAN REMOTELY CRASH PLANES AND CAN READ YOUR MIND

CONTRIBUTING WRITERS | OPINION | [AMERICANS FOR INNOVATION](#) | JAN. 11, 2018, UPDATED FEB. 18, 2018 | [PDF](#) | <https://tinyurl.com/y7rj2xfy>

Approx. width of a quarter

**FIG. 1—RICHARD C. WALKER, AGILENT TECHNOLOGIES (PALO ALTO, CA) HOLDS MONSTROUS "INTERNET OF THINGS" PATENTS THAT CAN TAKE DOWN PLANES WITH REMOTE INSTRUCTIONS TO ONE LITTLE QRS-11 SENSOR IN THE AUTOPILOT SYSTEM. The global surveillance grid includes embedded chips in planes, devices, equipment and people to remotely send signals and control every element of The Internet of Things network. The QRS-11 quartz rate sensor (the diameter of a quarter; also see [AbelDanger.org](#) for more detail on the uninterruptable autopilot) is embedded in most aircraft autopilots. The intelligence**

version of the sensor can be turned off remotely and bring down the plane. In the late 1980's and early 1990's,

Hillary Clinton's Rose Law Firm in Little Rock, Arkansas was the original attorney representing the inventor of the [QRS-11](#) sensor in [BEI Electronics/Technologies](#) (US Pat. Nos. 3,974,428; 3,976,997; 4,628,298). This sensor was so critical to national security that the State Department [fined Boeing \\$16 million](#) for illegal exports. After many mergers and company sales, the rights to the QRS-11 went to France for a decade owned by Schneider Electric SA. Schneider sold the rights to a Barclays Bank client in London. The Rose Law Partner who hired Hillary, [J. Joseph Giroiri](#),

served on the BEI Technologies board of directors. He also coordinated the Clinton's China and Indonesia banking connections associated with their Mena, Arkansas drug smuggling, money laundering and sex trafficking.

Barclays then sold the company and the QRS-11 patent rights to [Sensata, Inc.](#) which is controlled by Mitt Romney's Goldman Sachs-aligned Bain Capital in Boston. Tellingly, dozens of former Clinton staff have died in mysterious airplane and vehicle crashes. Also telling, the late FBI Superstar [Ted Gunderson](#), said in 2005 that Oklahoma City bomber Timothy McVay had a bio chip surgically installed in him by Dr. Louis Jolyon "Jolly" West who led the rogue C.I.A.'s MKUltra mind control program. Conveniently for Bill and Hillary, the Oklahoma City bombing destroyed the records of the FBI investigation on Janet Reno's WACO criminality. The bombing also killed former Clinton chief of security [Alan G. Whicher](#). [Four other Clinton's bodyguards](#) (C. LeBleu/T., T. McKeaham,, R. Williams,, S. Willis) were shot in the head by a helicopter sniper at the illegal military siege of the Branch Davidian property in Waco, Texas (1993). Some call these deaths "Arkancide" since most everyone associated with the Clintons in Arkansas, except Larry Nichols, have died. Nichols produced [The Clinton Chronicles](#) (1994) to expose the Clinton devilish corruption. Despite ill health, Larry carries on the struggle to bring the Clintons to justice.

UPDATE! JAN. 16, 2018  
ETHERNET ENGINEERS—WHISTLEBLOW!

Most computer engineers have no idea how the IEEE 802.3 data transmission Ethernet standard was developed (Institute of Electrical and Electronics Engineers). We have just discovered that it was shoved down our throats by Deep State shadow government forces intent on controlling the Internet as a global spy grid and corporatist profit machine. Richard C. Walker a.k.a Rick Walker was a stooge for Agilent Technologies who was evidently tapped by the [Highlands Group](#) to seize control of technology standards needed for the takeover. This post contains hard, indictable evidence that proves the identities of the corporatists involved with HP/Agilent, including 3Com, Qualcomm, Broadcom, Cisco, IBM, Sun, Intel, NTT (Japan Telephone), Cielo, Quake, nSerial, Nortel, World Wide Packets. See [Jul. 10, 2000](#) IEEE meeting slides where Walker's pushes standards proposed on [Mar. 06, 2000](#)—the same day he filed for a patent (became [U.S. Pat. No. 6,718,491](#)) on the *same slides*. [Mindspring engineer Roy Bynum](#) complained that Walker was railroading the standard. Of course, after filing his patent, Walker had a vested interest in having it become the IEEE standard for data transmission. It did, to this day.

Patents last for 20 years from the time they are filed. Walker assigned it to HP/Agilent Technologies. Then inexplicably, on Jun. 24, 2013, the Patent Office allowed an almost identical patent [U.S. Pat. No. 9,451,057](#) on the 802.3 Ethernet standards by a subsidiary of [Marvell International, Ltd. thru inventor Brett A. McClellan](#), a Bahamian corporation with offices in Colorado. The Patent Trial and Appeal Board (PTAB) overrode the [Examiner Eric A. Myers \(Art Unit 2474\) who had ruled](#) that Marvell's filing was doubly unpatentable as being essentially a copy of Walker's earlier dubious Ethernet patents. Walker filed eleven (11) patents assigned to [Hewlett-Packard](#) and fourteen (14) assigned to Agilent. The PTAB overruled Examiner Myers and [awarded it to McClellan/Marvell anyway](#), void of substantive reasons, the PTAB (secret three-judge internal court) *magically accepted* ALL of Marvell's previously rejected novelty arguments. Therefore, Marvell's value appears to be fraudulent, yet they claim control of the 802.3 Ethernet standards driving all Internet data transmission. This evident corruption in the U.S. Patent Office shows it has become nothing but a rubber stamp for corporatists, and not a protector of American inventors.

LISTEN TO THIS BOMBSHELL VIDEO WHILE YOU READ THE REST OF THIS POST | SPREAD THE WORD

<https://youtu.be/PIIbqNQj8ls>

(JAN. 11, 2017)—What AFI and American Intelligence Media (AIM) researchers have just discovered is breathtaking, disgusting, astounding and monstrous. It is also shocking how far along the plan is. Amazingly, the Deep State shadow government, in its evident hubris, has fully disclosed their diabolical technology scheme for “The Internet of Things” in writing.

**The patent actually says** that their plan is to identify, tag, track and control literally *everything* on the planet. Their unquestioned plan is to embed micro-electronic control devices, either surgically or by injection, in every human being on the planet. To them, it’s all about “*management of the world’s resources*” including you. [Walker Patent No. 6,965,816 Col. 118, Lns. 53-54.](#) *[I have a nephew that works in R&D for Samsung in Sweden, and he was quite frank with me the last time I seen him in 14, that the plan was to chip everything. Everything I asked(us), he said that is their intent DC]*

Why would they publish these plans? They evidently believed that these documents would not surface until *after* they had seized control.

UNBELIEVABLY, YOU ARE JUST  
“WET-WARE”

These documents show that their authors have a total disdain for humanity. These define people as “wet-ware.” In this world view, a human is merely a silicon chip surrounded by a membrane of carbon and water.

[Bookmark: #wet-ware](#) | <https://tinyurl.com/yc3rnfb>

**These are the people who are planning to take over the world.**

Read for yourself:

Here are two lines captured from the actual patent:

**This requires hardware, software and wet-ware (people)—  
the procedures and protocols). The PFN TRAC system is a**

FIG. 2—[U.S. Patent No. 6,965,816, Col. 3, Lns. 5-6.](#)

“PFN” means Protected Primary Focal Node. “TRAC” means Trusted Remote Activity Controller.

The illustrations in Walker's patent are truly dystopian (a community or society that is undesirable and/or frightening)—**and they have been implemented!** Their message is clear: “you can run but you cannot hide.” In this illustration, even the trees are watching you! Here is Figure 21 from Walker's patent.

[Bookmark: #blanket-surveillance](#) | <https://tinyurl.com/yabtlw>

FIG. 3—[U.S. Patent No. 6,965,816, Fig. 21.](#)

PATENTS ARE INTENTIONALLY ARCANE AND HARD TO UNDERSTAND

For example, “inequitable conduct” means fraud, “prosecute” means make filings, “on-sale bar” means sell an invention too soon, “Markman” handles technical definitions, “pro hac vice” means an out-of-state attorney, “pro se” means represent yourself, and so on.

Patent lingo insulates the “old boy” club of patent lawyers and judges from We The People accountability.

[Bookmark: #patent-tutorial](#) | <https://tinyurl.com/ydsmq78w>

#### CATEGORIES OF INTELLECTUAL PROPERTY

Patents are a form of intellectual property alongside trade secrets, copyrights, trademarks and trade dress. Here’s a thumbnail tutorial.

**Trade secrets** are *anything* you do or think that is not publicly known that you have taken reasonable means to protect, like the way you solve a problem or build something.

**Copyrights** are your thoughts reduced to some medium like pen, paper, program or design, like books, artwork, type or manuscripts.

**Trademarks** are unique names, phrases and other expressions used in commerce and assigned to you in order to avoid confusion in your marketplace. For example, it would be confusing to have two companies in your state with the same names.

**Trade dress** is the sum total of the way something is designed, like the unique colors and style used in a franchised store design and product packaging.

Finally, **patents** are unique and “non-obvious” inventions, methods and designs. Patents do not have to be working to be patentable. They just have to be described well enough to be repeatable by a person of “ordinary skill in the art.” We’ll describe what this means below.

**PATENTS ARE UNIQUELY PROTECTED IN THE U.S. CONSTITUTION**

Patents and copyrights are the only two property rights specifically protected by the [U.S. Constitution, Article 1, Section 8, Clause 8](#). Indeed, the Founders protected inventors because new ideas are essential to creating new wealth. They also knew that innovations are fragile flowers that would otherwise be hijacked by greed, power and wealth if not protected.

Tragically, the patent system has been hijacked by many corrupt lawyers and judges who themselves [steal from real inventors and grow rich](#) in the process.

**PATENTS ARE A PROPERTY DEED AND CONTRACT**

A patent is a contract and a property deed. The contract is between We The People and the inventor. We give the inventor twenty years to exploit his or her idea for the benefit of society and to be rewarded for sharing the invention with the public.

The patent document itself describes the innovation. It’s like the “four corners” of a physical property deed (e.g., survey, terrain, frontage, roads, vegetation, water, drainage, utilities). Similarly, a patent describes an inventor’s new idea in words and diagrams.

A patent must contain enough detail to enable a third party with “ordinary skill in the art” to replicate it . . . ostensibly for the benefit of society. The expectation is that third party will license the underlying patent in the process of adding value to it.

**RICHARD WALKER'S PATENT COULD NOT WORK WITHOUT LEADER TECHNOLOGIES' SOCIAL NETWORKING INVENTION, SO THEY STOLE IT.**

Walker has not licensed the invention of social networking from Leader Technologies.

Instead, as this Walker patent reveals, they just stole it.

Indeed, Walker's patent would not have worked on the large scale they describe without Leader social networking invention. We’ll show that below.

Here's the proof.

“Art” means the field of the invention, like computer hardware, software, furniture, machinery, medical device, pharmaceutical, consumer product, office product, tool, manufacturing method, agricultural implement, vehicle type, etc.

The Patent Office uses the North American Industry Classification System ([NAICS](#)) for the tens of thousands of “art” classifications. An inventor must describe his/her invention in enough detail so that one of ordinary skill in the patent classification being described can replicate it.

The Walker patent discussed below identified both U.S. and International industry classifications. See also [“How do I read a patent? - the Front Page.”](#)

TABLE. 1—RICHARD C. WALKER [U.S. Patent Number 6,965,816 Nov. 15, 2005 Classifications.](#)

We recently uncovered [U.S. Patent Number 6,965,816](#) (10.9 MB) awarded on Nov. 15, 2005 to the named sole inventor Richard C. Walker titled:

“PFN/TRAC System FAA Upgrades For Accountable Remote and Robotics Control To Stop The Unauthorized Use of Aircraft and to Improve Equipment Management and Public Safety in Transportation.”

While this patent focuses on aircraft, it is written so broadly as to encompass all kinds of equipment and devices, including people, defined as “wet-ware.”

While the patent was issued on Nov. 15, 2005, it incorporates filings going all the way back to Dec. 2, 1996.

Most patents incorporate provisional patents and related technology upon which they rely. AFI and American Intelligence Media (AIM) researchers cataloged those claims for this patent below. Several critical pieces of information emerge.

**First**, these patents to remotely control vehicles **started being filed within two months of the passage of the Economic Espionage Act of 1996 (EEA) during Bill Clinton’s first term.** The EEA was written by law professor James P. Chandler, III.

Robert Mueller, James Comey, Rod Rosenstein, Loretta Lynch, Eric Holder, Larry Summers were strategically positioned at the top of the Justice Department and Treasury. The patentee, Richard C. Walker, could have patented a ham sandwich had this group wanted it.

**Second**, the evident intent of the Walker patent was to illustrate the technology planned for control of everything—The Internet of Things.

**THEIR JUSTIFICATION:** The benevolent control of vehicles and aircraft in hijack situations was merely the *cover story* for the development of a global surveillance grid on *everyone and everything*. Given the timing of these Walker filings (around 9/11), one is increasingly skeptical about who really caused 9/11.

**Third**, Robert S. Mueller’s law firm, Wilmer Hale LLP, formerly Hale & Dorr LLP, drove Walker's filings. Mueller was sworn in as FBI director just seven days before 9/11. This clearly implicates Wilmer Hale in the treachery.

**Fourth**, the global data sharing platform described in the patent was not doable by the likes of IBM, Microsoft, Boeing, AT&T and Cisco. They were all behind the curve from an R&D perspective when the Internet emerged. For example, Bill Gates thought it was a fad. The telephone pager network that Walker described *could not scale* to the volumes required for such global communication.

James P. Chandler surely could not believe his luck, when, in early 2000, Michael McKibben of Leader Technologies was first introduced to him. Leader was looking for the best patent attorney in the country to protect its social networking innovations.

Chandler, on the other hand, needed a fix for the Deep State's ailing digital takeover master plan. He agreed immediately to be Leader's patent attorney. He then spent the next three years deceiving Leader until he was able to get his hands on the underlying engineering source code, which he immediately shuffled to the IBM Eclipse Foundation where DOJ's **Eric Holder** and IBM's **David Kappos** were waiting, along with **Cisco, Microsoft, SAP, Oracle, Kleiner Perkins, Qualcomm, Goldman Sachs, JPMorgan, AT&T** and a host of other rogue C.I.A. providers.

Leader's source code was essential to building The Internet of Things, quickly.

The table below shows the patent filings included in the PFN/TRAC System FAA. The eventual patent focused on remote control of aircraft, but also subsumed control of vehicles, ships, equipment, commerce, education and people.

WHO IS RICHARD C. WALKER?

A.K.A. "RICK WALKER"

**FIG. 4—RICHARD C. WALKER, Hewlett-Packard, Kline & Walker, LLC, Agilent Technologies, client of Wilmer Hall LLP (formerly Hale & Dorr LLP).**

Did he really invent all these patents?

Walker is a geek scientist who has worked inside the bowels of Hewlett-Packard and Agilent Technologies his entire career.

We do not believe that Walker is the sole inventor. The sheer breadth of global policy perspectives incorporated in these documents shows a collective policy mind.

Our hunch is that they are derived from the illegal [Highlands Group](#) that has been secretly convened since late 1994 by the Department of Defense to begin coordinating the Deep State takeover of the Internet.

According to Walker’s resume, he was a Principal Staff Scientist at Hewlett-Packard (HP) for twenty-one (21) years from Jan. 1981 to 2002. Since 2002 he has been a Senior R&D Electrical Engineer at Agilent Technologies, for whom he continues to file patents.

RICHARD C. WALKER ONLINE BIOGRAPHIES			
<i>Years</i>	<i>City</i>	<i>Organization</i>	<i>Activity</i>
1978-1981		Caltech	BS, Engineering and Applied Science
1988-1992		California State University-Chico	MS, Computer Science
1981-1991		Hewlett-Packard Laboratories	Technical Staff
1981-2000	Palo Alto	HP Labs	Principal Project Engineer
1981-2001	Palo Alto	Hewlett-Packard	Principal Project Engineer
1991-2003	Palo Alto	Agilent Technologies	Principal Project Engineer
1982-2004	Palo Alto	Agilent Technologies	Principal Project Engineer
2005-2012	Palo Alto	Adema Technologies	Consultant
2009-2015	Palo Alto	Corning	Consulting Electrical Engineer
2015-2016	Palo Alto	Speck Design	Consulting Electrical Engineer
2010-current	Palo Alto	R&R Engineering LLC	Owner
2016-current	Santa Clara	Agilent Technologies	Sr. R&D Electrical Engineer

**TABLE 3—RICHARD C. WALKER BIOGRAPHIES.** Sources: [LinkedIn](#), [ResearchGate](#).

Walker has consistently failed to disclose his Kline & Walker, LLC company that claims ownership of this 170-page total global surveillance "Internet of Things" patent . . . even though he assigned the patent to Kline & Walker, LLC (a *defunct company*) on Nov. 15, 2005

1998 to (at least Nov. 15 2005)	Potomac MD	Kline & Walker, LLC	Owner & Inventor
---------------------------------	------------	---------------------	------------------

Patent Office records show that at least until [Nov. 15, 2005](#) when the patent was awarded, “Kline & Walker LLC” was still the owner or “Assignee.” This information alone shows "fraud on the court" or "inequitable conduct" since the official company records in both Maryland and Delaware show that Kline & Walker, LLC was long defunct for nonpayment of taxes, see below.

Remarkably, he does not show his employers, HP or Agilent Technologies, as the assignee, which is what one would normally expect to see from such a large volume of work. Corporations rarely—almost never—allow an employee to file for patents that are not assigned to the company.

State corporate records show that Kline & Walker LLC was formed in Delaware on [Aug. 06, 1998](#), then 20 days later in Maryland on [Aug. 26, 1998](#). These records also show that these companies did not pay any taxes and were both closed after the statutory waiting period.

Therefore, Kline & Walker LLC appears to be a faked company running interference for the true inventors (we think the Highlands Group). Such conduct, if true, is called “inequitable conduct” in patent law. Patents are not permitted to disguise material contributors.

AGILENT TECHNOLOGIES IS EVIDENTLY A DEEP STATE SURVEILLANCE SUPPLIER

Walker’s current employer, Agilent Technologies, was a spinoff of HP that went public on [Nov. 18, 1999](#). That was only a week after Bill Clinton and his Treasury Secretary Larry Summers abolished Glass-Steagall. Summer’s chief of staff then was Sheryl K. Sandberg, the subsequent creator of Gmail (2004) and the current chief operating officer of Facebook (2008 to current). Another Summers employee then was [Marne L. Levine](#), Levine who married disgraced C.I.A. director [John M. Deutch’s](#) son, and is now chief operating officer at Instagram. Deutch was pardoned by Bill Clinton on the same day as Marc Rich. It's truly a cozy little world at the top of the criminal Internet of Things. ***[Interesting to note that Deutch's behavior for which he was pardoned, just so happened to mirror the activity of the wife of his pardon giver, cozy indeed. D.C]***

Agilent raised \$2.1 billion and was the largest Silicon Valley public offering ever at that time. The usual globalist shadow government suspects were the Agilent underwriters: Goldman Sachs, Morgan Stanley, Credit Suisse, JPMorgan, etc. The insider trading is evident.

To put the Agilent Technologies / HP actions in context, on [Jul. 14, 1999](#), President Bill Clinton formed the National Intellectual Property Assurance Council (NIAC) by **Executive Order #13130** with James P. Chandler, III.

A few months later on [Sep. 29, 1999](#), President Bill Clinton formed **In-Q-Tel** to run a rogue C.I.A. private venture capital company in Silicon Valley.

A few weeks later on [Nov. 12, 1999](#), Bill Clinton and Larry Summers, Clinton's Treasury Secretary and Chandler's Harvard colleague, abolished Glass-Steagall market protections separating underwriting and banking.

Evidently, Agilent Technologies and HP are key suppliers to the Internet of Things.

HP & AGILENT ARE COMPLICIT

Here is a complete U.S. Patent Office list of the patents attributed to Richard C. Walker as the inventor. Eleven (11) are assigned to [Hewlett-Packard](#) and fourteen (14) are assigned to [Agilent Technologies, Inc.](#)

These patents are very evidently refinements of Walker's "control everything" patent. They are full of euphemisms (deceptions) to obscure the true censorship purpose.

Here's just one example:

[Bookmark: #walker-predator-eyeglasses](#) | <https://tinyurl.com/ycnvznt>

WALKER PATENTED PREDATOR SPY GLASSES FOR SECRET ID & DATA COLLECTION

U.S. Pat. No. 6,735,328 filed on filed on Mar. 07, 2000 (soon after Agilent was founded), awarded May 11, 2004 and assigned to Agilent Technologies, Inc. is titled "*Personal viewing device with system for providing identification information to a connected system.*"

Walker helped patent a system for spies to identify anyone or anything (Internet of Things) by wearing his glasses as the viewing device (Read: You can run, but you cannot hide from Walker and his predator friends). A sister patent is a special helmet that enables the system to determine exact location (latitude, longitude and altitude) of the target being viewed through these glasses.

FIG. 5—[U.S. Pat. No. 6,735,328, Fig. 2](#). Mar. 07, 2000, awarded May 11, 2004 and assigned to Agilent Technologies, Inc. is titled "*Personal viewing device with system for providing identification information to a connected system.*"

MEMO TO WET-WARE: THE INTERNET OF THINGS PLANS TO CONTROL EVERYTHING IN YOUR LIFE AND YOUR FAMILY'S LIFE

FIG. 8—Boston and London Internet of Things pitchman Beecham Research has produced this cute little pastel illustration of the demonic takeover.

[Bookmark: #trump-fund-leader-miller-act-notice | https://tinyurl.com/yd59t8x7](https://tinyurl.com/yd59t8x7)

CAN THIS TECHNOCRATIC TAKEOVER BE STOPPED? YES, BUT WE MUST START REMOVING THE SPYING TOOLS IMMEDIATELY

Defund these criminals—their corruptly-acquired power must be removed.

Stop the criminals who are responsible for this, which means we need to lock up Hillary and the others truly responsible.

Ask President Trump to pay Leader Technologies' [Miller Act Notice](#). This generates hundreds of billions of dollars in new revenue for the federal government without raising taxes, among the many benefits. It will also help to start developing a true Free Press envisioned by the Founders and now lost to the globalists

Before closing out this incredible governmental crime against humanity, it should be noted that this term “wet ware” refers to humans that can be “chipped”. In past or previous discussions of the Biblical “Mark of the Beast” referred to Revelation, found six times in Revelation 13:17; 14:11; 15:2; 16:2; 19:20; and 20:4, warns us to, under no circumstances whatsoever, take the “Mark of the Beast”. The technology is not a future theory, it is a reality and it is here now.

“MEMO TO WET-WARE: THE INTERNET OF THINGS PLANS TO CONTROL EVERYTHING IN YOUR LIFE AND YOUR FAMILY'S LIFE.”
