

# There Are No “Statute of Limitations” On FRAUD!

Part 13

## The Exchange Stabilization Fund

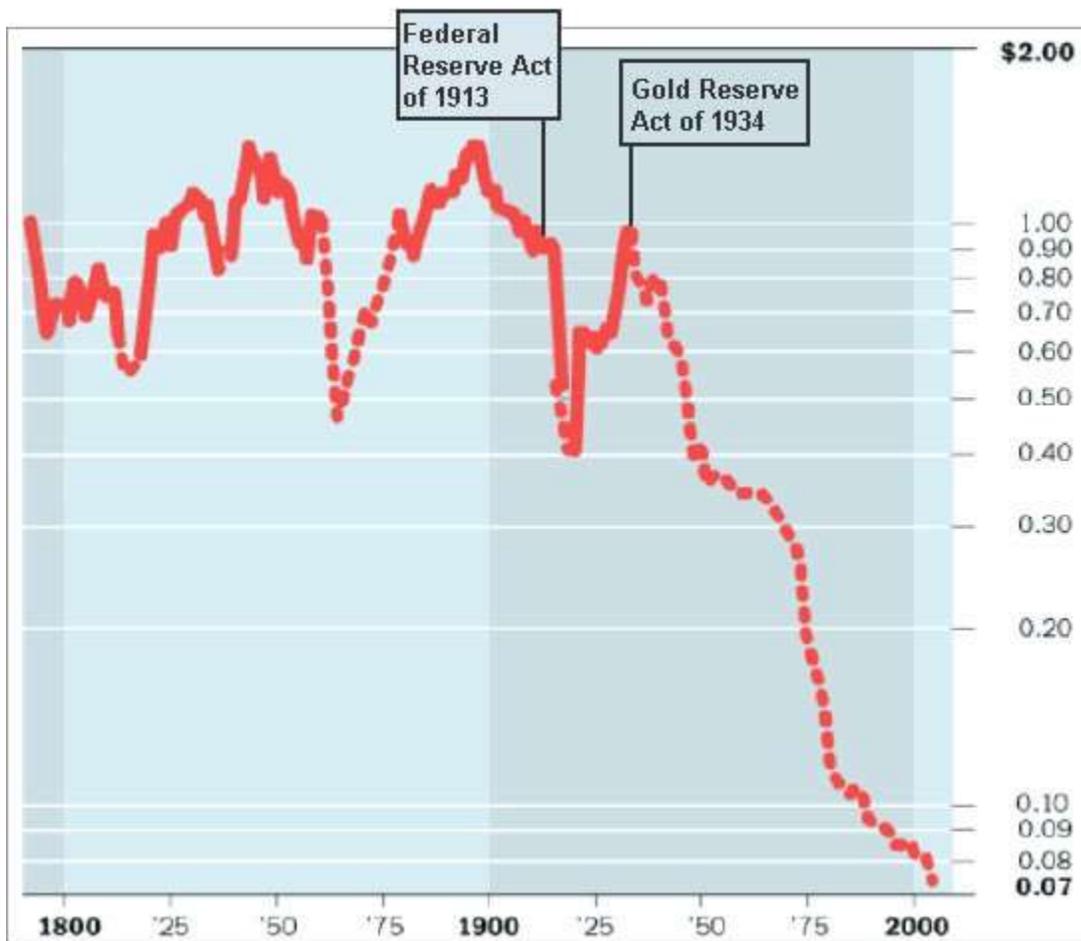

Who would like to know where \$21 trillion of U.S. taxpayer dollars disappeared to between the years 1995 - 2015? Earmarked for the DOD and HUD this money disappeared down a black hole of criminal corruption that has funded some of the most profound criminal activity in the last 100 years, if not all of history. Most everyone in the truth movement knows that the Kennedy assassination was an inside job but where did the funding for such a massive undertaking come from? The answer to this riddle and much more lays within one of America's best kept secrets... the **“Exchange Stabilization Fund”**.

The **ESF** has been behind every major U.S. fraud/scandal since 1934, according to researcher Eric de Charbonnel of MarketSkeptic.com. These include the London Gold Pool (that eventually led Nixon to taking us off the gold standard), the Kennedy assassinations (both),

Iran/Contra, CIA drug trafficking (and likely human trafficking), HIV/AIDS and more. Eric de Charbonnel did his work in 2011, and a few months later, he disappeared from the face of the earth, never to be heard from again. He comes from a family of central bankers and knows banking well.

The **ESF** was established as a part of the Gold Reserve Act of 1934 as a part of the Treasury Department. Conducted through the NY Federal Reserve Bank, its stated purpose is to stabilize the dollar and keep it that way. In 1934, **\$2.8 billion** was transferred to the Treasury with absolutely no Congressional oversight effectively establishing a secret “slush” fund at the Fed. Since then it has controlled both domestic and international finance, not to mention it has grown to **\$800-Trillion Dollars**. This rightfully belongs to the American public, and others, from who it was stolen from by then President, Franklin D. Roosevelt.

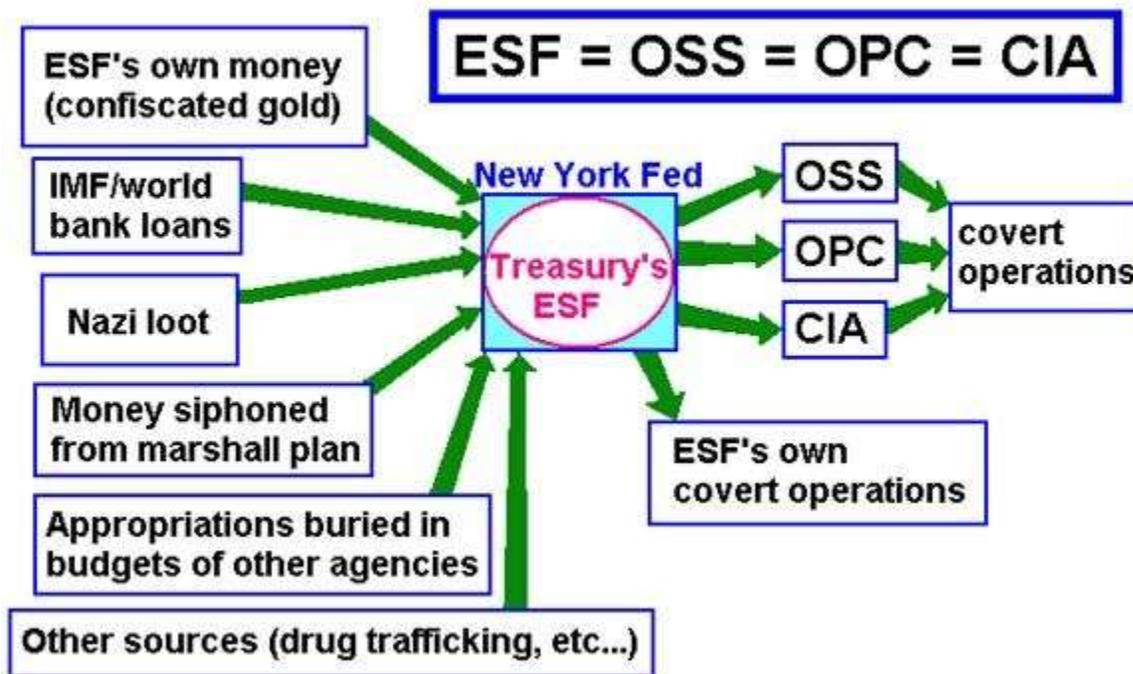

We all like to blame the Fed for the fiat currency crisis as well as any other fiscal and monetary problems, but as we shall see, it is in fact the Treasury through the **ESF** that controls the economy... the Gold Reserve Act in effect denuded the Fed of most of its power.

Since its inception the **ESF** has consistently debased the value of the U.S. dollar that it was created to protect. Since WWII the **ESF** has been a "secret weapon" for funding black ops of every sort imaginable. During the war, OSS (the precursor to the CIA) used it for covert financial operations to "keep Nazis out of Mexico and Central America." They are able to accomplish this because the Secretary of the Treasury is under no obligation to obey the laws of the U.S. thus the **ESF** has been funding black ops around the world for over 80 years.

It was the **ESF** that was behind the Bretton Woods agreement establishing the IMF and World Bank. Under Harry White, a Treasury Dept. employee and member of the OSS Committee the **ESF** began using taxpayer dollars to interfere in foreign elections and later laundering money from CIA drug operations, all through the NY Fed. White also became the first president of the IMF.

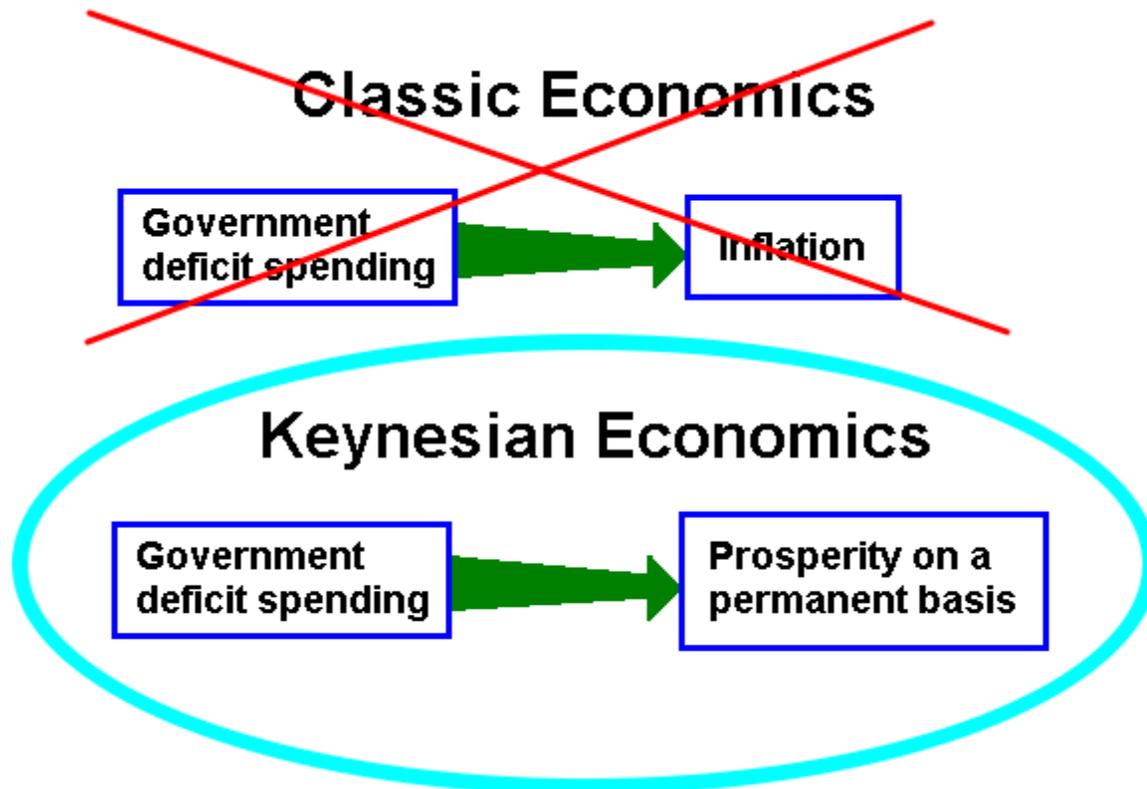

### The ESF runs the US's black budget

The third video, of a 5-part, hour-long expose in this series shows a profound history of the CIA's failures in espionage- the only things it became proficient at are propaganda, drug trafficking and spending money with wanton abandon. It also points out that it is through books (and controlling reviewers) that the most successful propaganda is distributed. During the Church Committee hearings in Congress the CIA was successful in downplaying their involvement in mainstream media. However, at the time of the hearings there were over 400 CIA plants in the mainstream media including the biggest names in network news... the only difference between then and now is the number of CIA influenced "journalists."

In 1961 the **ESF** began using currency swaps to dominate foreign currency markets. Their ventures into Cold War covert ops had almost entirely drained the U.S. gold reserves. This is why Nixon had to take us off the gold standard, not because of "foreign speculators." They also use the Fed to control the derivatives market. Since the 1960's, because of the **ESF**, the entire U.S. economy has been based entirely on smoke and mirrors... a gigantic Ponzi scheme based on statistical propaganda. This is what has caused the debasement of our currency more than anything else. This is what drove the switch to Keynesian economics in the 1960's, although it could be argued that FDR was a fan.

It has been since the 60's that we have come to view debt as an asset.

Since in no rational world can one spend their way to prosperity, the IMF and World Bank, at the behest of the **ESF**, began forcing loans on foreign nations and then sending the military in to collect. The only ones profiting from this new version of American foreign policy are the arms manufacturers, the CIA and the **ESF**. "Beware the military-industrial complex" need indeed. President Eisenhower warned the American public in his farewell address.

By printing huge sums of money and sending it overseas, it doesn't show up as inflation in the US economy. This is likely what was behind Obama sending plane-loads of cash to Iran.

This is the new prosperity. Iran/Contra was a mechanism by which the CIA destabilizes foreign countries. This is now how the **ESF** stabilized dollar, by forcing regime change around the world. During the 1980's the **ESF** began smuggling bulk currency out of the US funding the Afghan opium trade for the CIA. Also included was the Columbian cocaine trade. To maximize profits they got forfeiture laws passed where the seizure of assets are funneled into the Treasury.

Some months ago two billionaires began a public dialogue that can enlighten us all about the Dark Corners of the American government. It began earlier when Hugo Salinas Price noticed that the reserves of Central Banks around the world had declined by a trillion dollars. Central Banks had dumped a trillion dollars in U.S. government bonds in the 17 months ending January 8, 2016. Normally that kind of fire sale of assets would have taken down the U.S. and global economies.

Another billionaire had an answer. Rob Kirby said the **US Exchange Stabilization Fund** bought trillions of dollars in bonds. The **Exchange Stabilization Fund** was created in 1934. It is above the law and any Congressional oversight. The CIA has been subject to Congressional investigation but never the **ESF**. It was initially funded when FDR asked Americans to turn in their gold coins that were valued at \$20.67 per ounce. A few months later the dollar was revalued to \$35 which gave the **ESF** a paper profit of \$2.8 billion. The Treasury Secretary appointed a manager for the **ESF**. The first man to run the **ESF** was Harry Dexter White who worked closely with Secretary Henry Morgenthau Jr. Soviet documents proved that White was also a Soviet spy. White served on 18 government boards including the one that ran OSS Black Ops financing. He sent \$50 million to China in 1940 to fund the war against Japan.

White also helped create the IMF and the World Bank. He won the battle with John Maynard Keynes to make the U.S. Dollar the world's reserve currency at Bretton Woods in 1944. This had severe ramifications for the Dollar and later might have become one of the major reasons why President Kennedy was assassinated.

The **ESF** took over Black Operations financing for the CIA when it replaced the OSS. In 1948 the **ESF** delivered \$10 million in cash which CIA handed out to politicians in Italy to make sure the 'Good Guys' won the elections. The **ESF** funded regime change all over the world. And when it came time to import heroin from the Golden Triangle in Southeast Asia to the U.S. during the Vietnam War, the **ESF** was there alongside Air America, a CIA company.

In the 1960s the American Dollar was experiencing problems. Wall Street had decided to over populate the country so America had to run deficits to pay for the importing of raw materials that were not needed when the population was only 150 million people. The U.S. was also supporting hundreds of military bases overseas and funding regime change. The **ESF** developed a work around through the IMF to pay for military coups and counter revolutions. The **ESF** would front the coup leader's cash which was subsequently written up as an IMF loan.

The **ESF** would ask that these loans be paid back in foreign currencies so the U.S. Treasury through the New York Federal Reserve Bank and its 21 primary dealers could manipulate currencies to make the dollar look good.

Other sources of income for the **ESF's** market manipulations of gold and currencies were the illegal drug and weapons trade. It was the **ESF** through the CIA that set up the infrastructure for the major drug cartels. We know that the Big Banks launder a trillion dollars a year in illegal drugs and weapons sales. They also launder \$500 billion a year in political bribes.

In the summer of 1963 President Kennedy had decided to change the way international monetary policy was conducted to cure our continual trade deficits. He wanted to bring in foreign countries and to make the operations of the **ESF**, the Federal Reserve and the Treasury Department transparent and open to public inspection. This decision died with JFK's assassination. President Kennedy was killed on the 53rd anniversary of the first meeting held in 1910 to draft the legislation that became the Federal Reserve Act of 1913. Other reasons given for the assassination of JFK were his opposition to Israel's acquisition of nuclear weapons; and some wanted the U.S. to go into the Vietnam War and lose it so we could hook the younger generation on drugs and make trillions of dollars from the addicts and the systematic destruction of our cities.

The decision to keep **ESF's** operations a Dark Secret had disastrous consequences for the Dollar. Robert Roosa was Undersecretary of the Treasury for Monetary Affairs under Kennedy and then Johnson. As head of the **ESF**, he decided to issue U.S. Treasury bonds which were payable in Swiss Francs. They were called Roosa Bonds. They were a disaster as the Swiss Franc went up in value. The **ESF** also bet against the German Mark which proved to be another losing proposition. They also participated in the London Gold Pool which tried to keep the price of gold down by dumping U.S. gold onto the markets. This also was a disaster as gold kept going up while the Dollar kept going down.

Please note that Roosa was a former NY FED VP and later became a trustee of the Rockefeller Foundation and a member of David Rockefeller's Trilateral Commission. Roosa's boss was Douglas Dillon who was a boyhood friend of the Rockefeller brothers. His father was Jewish and had changed the family name to Dillon. Dillon went on to serve as President of the Rockefeller Foundation.

There were some Dark Days for the Dollar in the late 1960s through the 90s. The **ESF** did make a lot of money from the Drug trade. In 2001 the Bush administration had decided to invade Afghanistan even before Israel did 9/11 to blame it on the Muslims so we could spend \$6 trillion on wars for Israel. That decision to invade Afghanistan was made because the Taliban had eradicated most of the opium crop which threatened the Narco Dollar business.

The Narco Dollar allows the U.S. to print money by the trillions and to send them overseas to finance drug shipments and pay ten billion dollars in bribes every week. Keeping that money overseas lowers inflation in the US. The invasion of Afghanistan was good for the U.S. Banks.

The Bankers started printing Super Notes which were authentic looking counterfeit \$100 bills. They were updated dozens of times to keep them looking good. The US propaganda machine blamed Russia and then Iran. The Super Notes were not made good enough to be accepted by the Federal Reserve or any major Central Bank. That was so holders of Narco Dollars would be too frightened to try to redeem them at a Central Bank thus keeping all that money overseas in circulation. Bringing Narco Dollars home would destroy the American economy overnight through inflation. This remains a dire threat to the U.S. dollar!

There are other sources of money for the **ESF**. \$8.35 trillion went missing from the Pentagon since Clinton was President. We should expect some of that money to have made its way into that **ESF** slush fund to cover bad Wall Street investments and a weakening Dollar. Other federal agencies have seen money walk out the door but not to the level of the DOD.

There are \$225 trillion plus dollars in speculative bets made against a rise in U.S. interest rates. The **ESF** and the Federal Reserve are likely behind this wild speculation. The premiums from the sale of more than \$225 trillion in CDS were split up amongst the **ESF** and the major banks. These premiums gave the banks and the **ESF** tremendous assets which they could use to buy the trillions of dollars in US Treasury bonds.

A couple of years ago the Federal Reserve told the major banks to write living wills. This meant that banks were to separate their assets into several different corporations. Depositors' money and all of those risky Credit Default Swaps (CDS) and those fraudulent Mortgage Backed Securities (MBS) were put in the same section of the sinking ship as the FDIC taxpayer guarantees. The Central Banks including the Federal Reserve have decided that when the next crash comes depositors will be treated like investors. Deposits will be taken to cover losses. Of course the losses are far greater than the deposits in a fractional reserve system. That means the Central Banks will have to Hyper-inflate currencies to protect the Uber Rich. A Bank Holiday will rob everyone of what little money they have. After 90 days of unbelievable price increases, money from that savings account will be nearly worthless.

Bankers changed U.S. law. It is now the law that the banks obligation to pay for a CDS loss is greater than your demand as a depositor. Individual depositor's deposits are at the bottom of the priority list. This means speculators are to be paid before you get your deposit back, if at all. Legislation passed five years ago permits banks to take your deposits as assets of the bank!

Dr. Jim Willie has noticed some rather strange events in the Treasury bond market at the level of the New York Fed and the 21 primary dealers. I think the **ESF** is involved as well. It

seems that \$3.5 trillion in U.S. Treasury bonds were sold that were not issued by the Treasury. He compared the US budget deficit to the sales of Treasury bonds and found a discrepancy. Maybe that was the **ESF** acting through the NY FED to fund Black Ops and market manipulations.

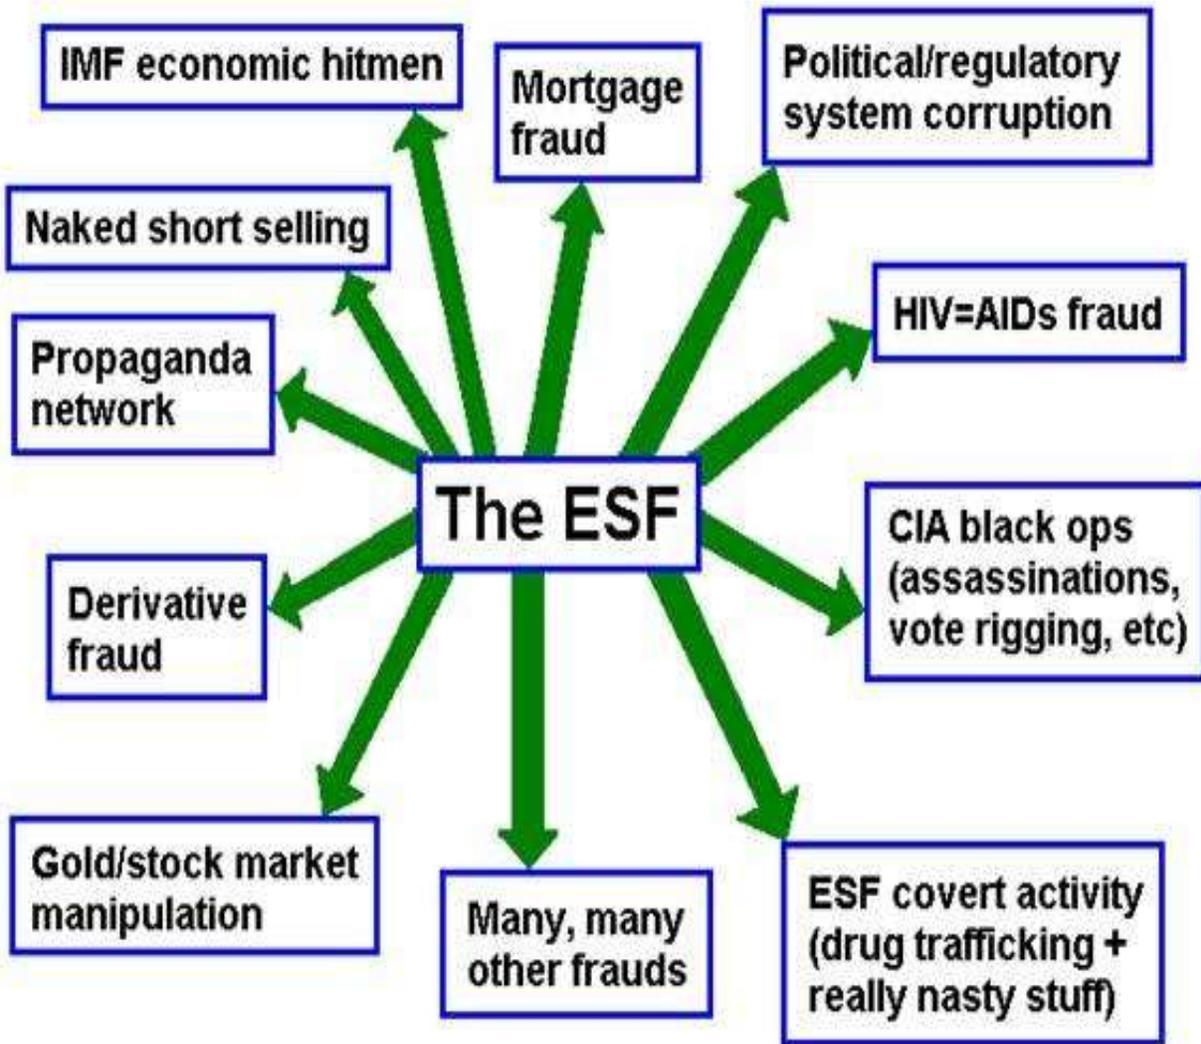

The **ESF** is the least likely candidate as the source of the funds to purchase a trillion dollars in dumped Treasury bonds. But how much longer can this continue? Nobody knows how many more trillions the **ESF** still has. The Dollar is the only strong currency but that is all due to manipulation and fraud. When the Dollar Dies, we will see an overnight devaluation and the beginning of Hyperinflation. There will be Nationwide Food Riots.

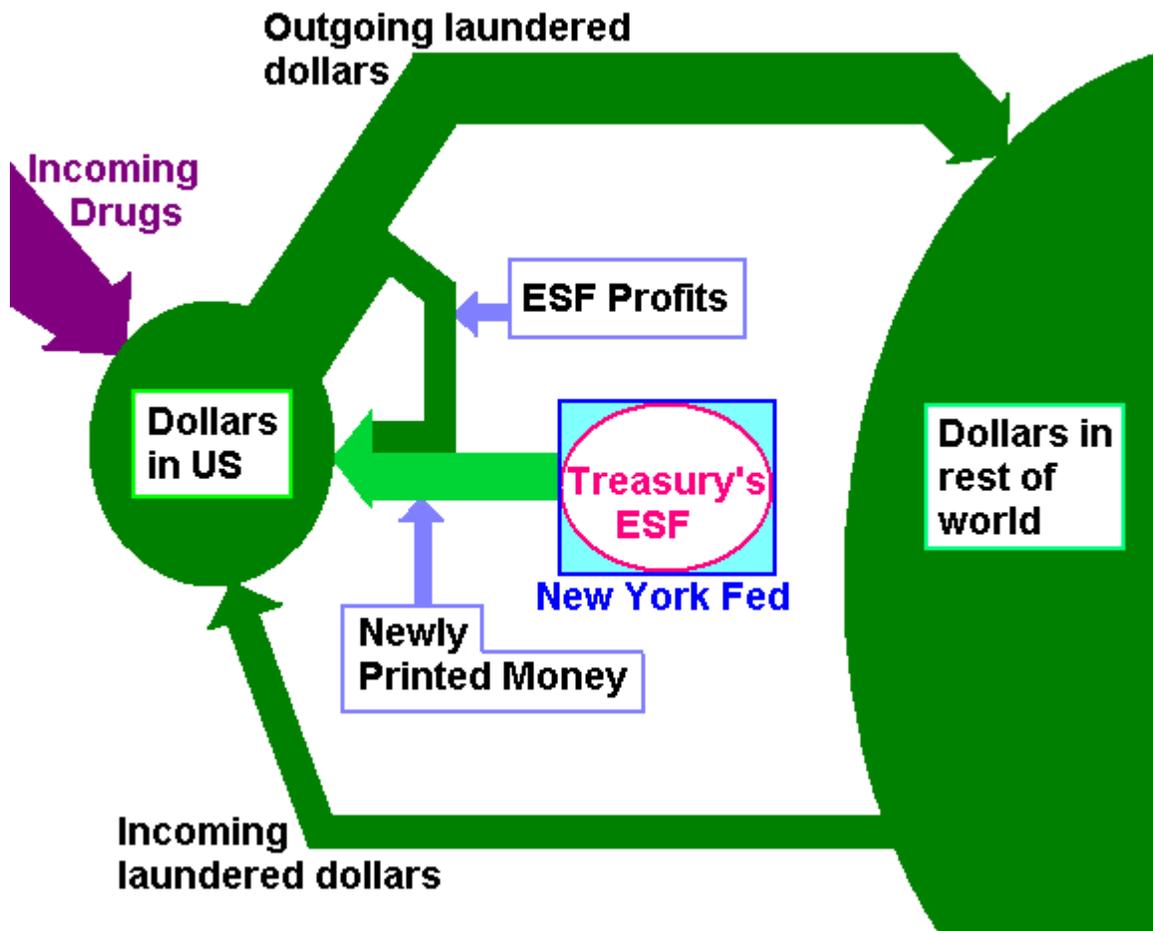

Many seriously doubted we can make it to election-day 2016 without a collapse if we do not have Debt Cancellation. They have been wrong. We need to arrest the Bankers and seize their assets before they destroy the world. We can use the money they stole from us to liquidate all the Unpayable Debts they created through fraud. That will happen once **"GESARA"** is implemented.

President Trump is reminded every single day when he sits at his desk in the Oval Office, the portrait of President Andrew Jackson to the left of his desk becomes a reminder of his plan to remove the Federal Reserve System and financial enslavement to the International Bankers. In recent weeks, Trump's base has been getting impatient, even to the point of abandoning him for the 2020 election. His speech at CPAC in early March has given his pole ratings a boost. If you followed his speech or listened to it, chief was the topic of the Federal Reserve. President Trump may seem to be ineffective or immobile in this issue over the Fed; however, progress is not always visible behind the scenes.

President Trump is well aware of the history of those going against the Rothschild's "business model", like President Abraham Lincoln and President John F. Kennedy. Things are moving, ever so slowly for some, however, President Trump has been waiting for the release of the Mueller investigation (witch hunt). Many of the President's items on his agenda hinges upon timing related to the Mueller report. Amazon has listed the Mueller Report for sale at \$9.38/\$12.99 retail available March 26, 2019. How can that be legal many are raising question about. March 26<sup>th</sup>, 2019 will become pivotal for unsealing over 81,000 sealed indictments.

"Q" has been posting at an incredible pace, over 100 in just the first 10 days of March. In a few of his posts he has been reminding followers that plans sometimes have to be modified and that timing is everything. "Q" is being attacked by the Deep State Democrats, and their fake news generators as well as folks inside the Patriot movement. Releases from "Q" have exposed Dr. Jerry Corsi and Alex Jones to be exploiting the "Q" agenda for financial gain. In all of the shake-out going on, we now know that Edward Snowden is an agent of the CIA. "Q" has exposed his real employer being the CIA, and his supposedly NSA ties were as a CIA spy! "Q" has called out those seeking to make money off "The Great Awakening" movement. My advice is "Q" often says, be patient, get your popcorn and watch the show!

Back in the 1990's 'Sacramento Bee' Journalist Gary Webb's research uncovered all of this- how HIV/Aids were not a result of gay sex, but from drug use. The gay sex ruse was all fabricated by CIA plants in the MSM. Webb was suicided (he shot himself in the head twice in 2004) for exposing the truth about the BCCI-CIA-ESF relationship. His research was quashed by the mainstream media - ridiculed as "conspiracy theory." He was discredited by his fellow journalists for telling the truth. In death Gary Webb was vindicated.

In 2001 the Taliban had eradicated the poppy/heroin operation in Afghanistan... the **ESF's** drug operation that was propping up the US economy was almost destroyed. If that happened they would have been exposed along with their machinations of the past 80 years. Then on September 11th they were miraculously rescued when the so-called 19 untrained Arabs stole four airliners crashing two into the World Trade Center, one into the Pentagon, and one into a Pennsylvania field near Shanksville, PA. Hmm! The result; war was declared, poppy production was restored and the **ESF** was saved (along with the American economy). America's sons and daughters are dying to protect the drug trade and the **ESF** Ponzi scheme. We know from Part 2 and 3 of this series who the real perpetrators who executed the 911 attacks and why!

As things turned out, it wasn't the 'Creature From Jekyll Island' that created fiat currency and all of the problems that go along with it... it was the **ESF**. The **ESF** and their propaganda apparatus has been very successful at blaming the "bad bankers" for the economic crisis that they themselves have created. There are indeed bad bankers, but not the guy at your local bank- it's the Wall Street bunch that are tied to the **ESF**.

This 5 video set uncovers, requires about an hour, detail of the biggest fraud and Ponzi scheme ever perpetrated on the American public. Watching it is one of the most productive hours I've spent in the last 10 years. These parasites are turning America into a third world country- and the feckless Federal Reserve is at the core of blame. This is the real Deep State!

<http://www.marketskeptics.com/2011/06/the-esf-and-its-history.html>

Most Americans are unaware that they are entitled to a portion of the **\$800-Trillion Dollars** that was discovered in the 1992 audit. I have done the math and you are entitled to a cash refund of approximately **\$2,453,987.73**. **Does that get your interest and attention?** I have said from the outset of this series, this is **"The Biggest Story of the Year, If Not the Century!"** This is roughly what the Federal Reserve System owes each American citizen alive today, for what it stole from the American Public since 1914. This amount is an approximate amount, not precise, based upon a U.S. population of 326-million, but a realistic amount that every living citizen of the country is entitled to because of the fraud committed by the Rothschild-owned U.S. central bank known as the Federal Reserve Act of 1913. **"There is No Statute of Limitations on FRAUD!"** The dilemma is one of educating and waking up the American public. The House of Rothschild uses payoffs in the form of contributions to politicians' re-election campaign funds to ensure their 'business model' remains intact. In other cases they use blackmail and bribery to guarantee their control of the money and credit of the nation. Former Congressman Ron Paul has been the main politician seeking to expose the Federal Reserve through his book 'End The Fed'.

President Trump and "Q" are working toward achieving one of two goals; either the Nationalization of the Federal Reserve or to destroy its choke hold that it has upon the United States of America. The **"Exchange Stabilization Fund"** has been used for every nefarious purpose imagined since 1934. It has been used to overthrow regime and governments all over the world, elected governments, good or bad ones. With the beginning of the CIA in the late 1940's it became the means of causing chaos around the world. It has funded the drugs from the Golden Triangle of SE Asia, the Columbian cartels of South America, and the heroin "poppy" fields of Afghanistan. However, the big picture is all about how the American public has been robbed of their wealth.

President Trump is waiting for the conclusion of the Robert Mueller witch-hunt to end, and once that is past we can expect massive moves to expose the Democrats and their corruption with the declassification of all documents held by the Department of Justice. The President actually ordered the declassification this past September. Everything points to the

new Attorney-General William Barr for thinks to begin clicking into some sort of action. Such will indicate whether President Trump's appointment of William Barr, an old carryover from the George H.W. Bush days was the right choice. On March 3, 2019, President Trump went off script by shining a light on the year '1913' during his CPAC speech: Launch of Federal Reserve and Income Tax That Year Began America's 'Century of Enslavement'. President Trump has been quiet about the PLAN largely because of the need to be on the defense taking hits from the Democrats and the bogus witch-hunt conducted by Robert Mueller.

The President bedazzled the crowd with a mix of humor, BS, bravado and a positive vision for America that no Democrat will be able to match and the '1913' remark shows that President has not forgotten the importance of that year in US history, or the reason the portrait of Andrew Jackson hangs on the wall of the Oval Office. While the President specifically referenced 'tariffs', as this Wikipedia entry for the Revenue Act of 1913 points out, that 1913 Act lowered tariff rates from 40% to 25%, effectively ending tariffs as the chief source of income for the United States government, only for it to be replaced by the 'federal income tax'. And as those paying attention know, the Federal Reserve Bank was also born that year.

As this 2015 story titled "1913: The Era Of Tyranny" perfectly points out, 1913 was the year that tyranny was officially born in America with the 16th Amendment to the U.S. Constitution allowing the federal government to directly tax the people. And as their story points out, *taxation of a person's labor is enslavement in all but name only*. The excerpt below is from their story with much more below including an extensive look at the "*Century of Enslavement*" that the creation of the FED and federal income tax launched in America.

*The Federal Reserve was also born that year allowing the Federal Government to issue "fiat money." Money that is valued only so long as confidence can be fabricated and maintained by the Federal Government. The Fed can print money to its heart's content devaluing our currency ever so slowly in the process. This is theft by devaluation. One dollar today is not the same as one dollar a mere ten years ago. Stealth wealth redistribution. The Federal Reserve is made possible only because of the tax base which is the Citizenry of the United States of America.*

*We are accounts upon which the Federal Government of the United States can perpetually draw upon for any and every misadventure and insane scheme that the Banks, controlling US Corporations and the Fed can fantasize about in their greedy, beady eyed little heads. Imperial America was born in 1913 made possible by the creation of the Federal Reserve and a permanent funding source that is US, the United States Citizen. These acts removed any checks that the individual and sovereign States held over the Federal Government paving the way for the Centralized and all too powerful Federal Government that we have today wherein the Executive can take the Nation to war on whims, lies and propaganda and truth is damned.*

*The Federal Government is now Supreme and all powerful. What it cannot overcome via coercion and threats of violence, it can overcome with pork via the confiscations of the Income Tax and the tyrannical Internal Revenue Service. Americans are now wholly owned subsidiaries of the Federal Government of the United States of America. We are slaves in all but name.*

Try not paying your Federal Income Taxes and see how free you are. The monies that are collected via the income tax make possible every evil that has been enacted by the Federal Government since 1913. In a previous segment I showed the 16<sup>th</sup> Amendment never passed!

According to this August 13th of 2013 story at Freeman Perspective titled "*The Blow That Killed America 100 Years Ago*", America had taken our fatal blow over 100 years ago, and we just haven't hit the ground yet. Warning that it's a slow process but actually fast compared to the Romans who took several centuries to fully collapse, we had reported Saturday on ANP that the collapse of Western civilization was nearly assured until the arrival of President Trump and the nationalist/populist movements of Western Europe. But are they too late?

***"There is a lot of ruin in a nation," wrote Adam Smith. His point was that it takes a long time for nations to fall, even when they're dead on their feet. And he was certainly right. The confusing thing about our current situation is that America – and by that I mean the noble America that so many of us grew up believing was real – has long been poisoned. Its liver, kidneys, and spleen have all stopped functioning. Its heart beats slowly and irregularly. But it still stands on its feet and presents itself as alive to all those who would let their eyes fool them. 1913: The Horrible Year For all the problems America had prior to 1913 (including the unnecessary and horrifying Civil War), nothing spelled the death of the nation like the horrors of 1913. Here are the key dates:***

***February 3rd: The 16th Amendment to the United States Constitution was ratified, authorizing the Federal government to impose income taxes on individuals. An amendment to a tariff act in 1894 had attempted to do this, but since it was clearly unconstitutional, the Supreme Court struck it down. As a result – and mostly under the banner of bleeding the rich – the 16th amendment was promoted and passed. As a result, the Revenue Act of 1913 was signed into law by President Woodrow Wilson in October. Income taxes began in 1914, with***

***the government swearing (as in, “only a crazy person would say otherwise!”) that the rate would never, ever go higher than one or two percent.*** [This was a total lie, or the Freeman Report is naïve and oblivious to the evidence known from the work of William Benson that showed the 16<sup>th</sup> Amendment to the Constitution was never legally ratified]

***April 8th: The 17th Amendment to the United States Constitution was ratified, taking the powers of the states and transferring them to Washington, by mandating the popular election of senators. Previously, senators were appointed by state legislatures, restraining the power of the national government. This change gave political parties immediate and massive power, nearly all of which was consolidated in the city of Washington.***

***December 23rd: Woodrow Wilson signs the Federal Reserve Act, which had passed Congress just the previous day. This system – called the Aldrich Plan, and promoted by Senator Nelson Aldrich of Rhode Island – gave a monopoly on the creation of dollars to a consortium of large banks. The Act was passed, by the way, in the name of financial stability.***

Their story then took a look at how all three of these 1913 laws combined began the death spiral of America, a death spiral that their story warns has been going on for over 105 years now.

President Trump went on to say, *“Here is why I say that these three changes of 1913 killed America: They robbed every producer in America of their money and handed it to politicians.”*

*Until 1913, ordinary people kept their money. Carpenters, grocers, and repair men were able to make business loans and to retire on stock dividends. Once the income tax came in, however, politicians were empowered to skim off more and more of their money, which is precisely what happened. While the modern skim is multi-faceted, the average producer is now stripped of half his or her earnings every year, leaving politicians to spend it. (ANP: Look at how many politicians are among the 1% in 2019!) They consolidated all power in Washington DC.*

*This is precisely what James Madison wished to avoid when writing the US Constitution. By depriving the states of their remaining power, the City of Washington had no opposition. Since then, the Washington government has taken over practically everything on the continent and is choking it to death... a lot like the city and empire of Rome before it. They created a money empire that took over almost everything. When you start talking about the immense power of central banking, people generally turn away from it, because it’s just too much to take. So, let me say it this way: How much money could you make, if you knew precisely when interest rates would go up or down? A lot, right? Well, that’s exactly the power that these bankers have – because they’re the ones who set the rates. Then, with that money, and with that foreknowledge, how many politicians could you pay off? How many pieces of legislation could you buy? Through all the financial problems of the past few years, which is the one group that has been protected at every step? Ever wonder why? I could add more, but I think my point is made. America, as we grew up thinking of it, is dead. Whether the carcass hits the ground in*

*days or decades is almost irrelevant; it's over. The question that remains is what we'll do about it.*

President Trump presented the case that the United States does not benefit with the Federal Reserve and his deliberately timed CPAC speech is an indicator that the PLAN is still high up on the Trump agenda. For those having lost hope in the focus of this series, I simply say be hopeful and keep your focus on "The Blessed Hope" as well.

The creation of the Federal Reserve started America on the long slope downwards towards total tyranny with the Fed nothing less than a leviathan casting its gigantic shadow all the way across the planet. And as this last July of 2018 story over at the New American had pointed out, President Trump is well aware of the power of the Federal Reserve and it's a power being used by them against him. Their story points out that President Trump will be serving himself and America best by drawing attention to their illegitimate power, and sooner rather than later. It also warned that if America continues to remain captive to the Fed, our nation's independence and liberty will forever be vanquished. From the New American story:

*"President Trump could find himself experiencing the effect of the Fed's manipulative power and could find out that the Fed can sink his chances for reelection in 2020. It would behoove him to draw attention to the illegitimate Fed power sooner rather than later. In any case, the drive for an impartial audit of the Fed would help, not just him but all who crave freedom. If our nation remains a captive of the Fed, it will become a captive a United Nations version of the Fed. And both independence for the nation and continued liberty for the people will disappear.*

The following excerpt comes to us from the book "*The Tyranny of the Federal Reserve*.":

*"The Federal Reserve is a leviathan that overshadows the world economy, dominating it, controlling the flow of money, affecting all our lives. The Federal Reserve Act was passed in 1913 in reaction to the bank runs, bankruptcies and financial chaos caused by the Panic of 1907. The stated purpose of the Act was to create a stable monetary system to bring financial stability to the United States and prevent such economic crises as the Panic of 1907 from occurring again. Sixteen years after the passage of the Act, under the Federal Reserve's watch, the nation experienced the worst financial collapse in our history and descended into our deepest and darkest depression--the Great Depression--a crisis far worse than the Panic of 1907 by orders of magnitude.*

*Since the creation of the Fed, we have lurched from boom to bust time and again as financial crisis has followed financial crisis. By any objective measure, the Fed has failed to achieve the stated objectives of its founding. Today, our economic imbalances are extreme and compounding and approaching a day of reckoning. Another financial collapse looms and casts a dark shadow over our future. Under the stewardship of the Federal Reserve, further hardship for our struggling middle class is certain and inevitable. It doesn't have to be this way. Drawing heavily from the writings and ideas of Benjamin Franklin, Alfred Owen Crozier and Carroll Quigley, "The Tyranny of the Federal Reserve" looks back on how we got here and*

*forward to a brighter future through essential national monetary reform.”*

So will President Trump take the incredibly extraordinary step of really draining the swamp by getting rid of the Federal Reserve Bank, a bank which by all intent and purpose has been printing counterfeit money now for over 105 years while charging Americans interest on their counterfeiting? While we won't hold our breath waiting, he could nearly ensure his 2020 re-election by doing just that. President Trump is virtually walking a tightrope like the famous French aerialist Philippe Petit on a cable suspended between the twin towers of the World Trade Center in lower Manhattan on August 7, 1974. The consequences could be fatal in more ways than one.

**The Federal Reserve System is the root of all our national economic and financial problems going back to 1913.** For the past 105 years the Rothschild's central bank of the U.S. has been the Federal Reserve. **In the most recent fiscal year of 2018, as a nation, we paid \$557-billion dollars in debt-servicing [i.e., interest] on the so-called National Debt.** That was **Billions** in case you skimmed past too quickly! Think about how the U.S. could have benefitted from that amount being spent locally. Parents and grandparents would not have to buy magazines, candy bars, strawberries, cookie dough, and cutlery their children are selling to buy school supplies, etc. I could make a list of infrastructure needs that every community needs or needs to replace. The election of Donald Trump has been the country's first chance to get the Fed off our collective backs since President John F. Kennedy. It might actually be our last chance to rid the country of the Federal Reserve. The Biblical implications are that the nation and the world will go cashless and be replaced with the "Mark" of the Beast. Here are a few important facts about the Federal Reserve:

#1. The greatest period of economic growth in U.S. history was when there was no central bank owned and controlled by an international bank.

#2. The U.S. never had an ongoing problem with inflation until the Federal Reserve was created. In the century before the Federal Reserve was created, the average annual rate of inflation was about .05%. In the century since the Fed's inception, the average annual rate of inflation has been 4%, and it would be even higher if the inflation numbers were not so grossly manipulated.

#3. Even using the official numbers, the value of the U.S. dollar has declined by 98% since the Federal Reserve was created in 1913, now 105 years.

#4. The secret November 1910 meeting at Jekyll Island, Georgia during which time the plan was hatched for the creation of the Federal Reserve was attended by U.S. Senator Nelson W. Aldrich, Assistant Secretary of the Treasury Department A.P. Andrews and a whole host of representatives from the elite of the Wall Street banking establishment.

#5. In 1913, Congress was promised that if the Federal Reserve Act was passed that it would eliminate the business cycles of boom and bust.

#6. The following comes from the Fed's own mission statement: "To provide the nation with a safer, more flexible, and more stable monetary and financial system. Over the years, its role in banking and the economy has expanded."

#7. It was not an accident that a permanent income tax was also introduced later the same year when the Federal Reserve system was established. The whole idea was to transfer wealth from our pockets to the federal government and from the federal government to the bankers.

#8. Within twenty years of the creation of the Federal Reserve, the U.S. economy was plunged into the Great Depression.

#9. If you can believe it, there have been 10 different economic recessions since 1950. The Federal Reserve created the "dotcom bubble", the Federal Reserve created the "housing bubble" and now it has created the largest bond bubble in the history of the world.

#10. According to an official government report, the Federal Reserve made \$16.1-Trillion dollars in secret loans to the big banks during the last financial crisis. But remember, the Congress only passed a bill to create \$750-Billion TARP Bill to save [bail out the banks] the country! The following is a list of loan recipients that was taken from that report, pg. 161:

- Citigroup - \$2.513 Trillion
- Morgan Stanley - \$2.041 Trillion
- Merrill Lynch - \$1.949 Trillion
- Bank of America - \$1.344 Trillion
- Barclays PLC - \$868 Billion
- Bear Sterns - \$853 Billion
- Goldman Sachs - \$814 Billion
- Royal Bank of Scotland - \$541 Billion
- JP Morgan-Chase- \$391 Billion
- Deutsche Bank - \$354 Billion
- UBS - \$287 Billion
- Credit Suisse - \$262 Billion
- Lehman Bros. - \$183 Billion
- Bank of Scotland - \$181 Billion
- BNP Paribas - \$175 Billion
- Wells Fargo - \$159 Billion
- Dexia - \$159 Billion
- Wachovia - \$142 Billion
- Dresdner Bank - \$135 Billion
- Societe Generale - \$124 Billion
- All Other Borrowers - \$2.639 Trillion

To my knowledge, no one has explained why the U.S. Congress “bail out” of \$750—Billion dollars was given to banks of major countries around the world. It has been my impression the bail-out was for our own U.S. banks, and not the world.

#11. The Federal Reserve also paid those big banks \$659.4 million in fees to help “administer” those secret loans.

#12. The Federal Reserve has created approximately \$2.75 Trillion dollars out of thin air and injected it into the financial system over the past six years. This allowed the stock market to rise to record heights, but it also caused our financial system to become radically unstable.

#13. We were told that the purpose of quantitative easing is to help “stimulate” the economy, but today the Federal Reserve is actually paying the big banks not to lend out \$1.8 Trillion dollars in “excess reserves” that they have parked at the Fed.

#14. Quantitative Easing overwhelming benefits those that own stocks and other financial investments. In simple words, quantitative easing overwhelmingly favors the very wealthy.

#15. The gap between the top one percent and the rest of the country is now the greatest that it has been in since the 1920’s.

#16. The Federal Reserve has argued vehemently in federal court that it is “not an agency” of the federal government and therefore not subject to the Freedom of Information Act.

#17. The Federal Reserve openly admits that the twelve regional Federal Reserve banks are organized “much like private corporations.”

#18. The regional Federal Reserve banks issue shares of stock to the “member banks” that own them.

#19. The Federal Reserve System greatly favors the larger banks. Back in 1972, the five largest banks held 17% of all U.S. banking assets. Today, the five largest U.S. banks hold 52% of all U.S. banking assets.

#20. The Federal Reserve is supposed to “regulate” the big banks, but it has done nothing to stop a \$441 Trillion dollar interest rate derivatives bubble from inflating which could absolutely devastate our entire financial system.

#21. The Federal Reserve was designed to be a perpetual debt machine. The Rothschild’s designed it intended it to trap the U.S. government into a perpetual debt spiral from which it could never escape. Since the Federal Reserve was established 105 years ago, the U.S. national debt has grown more than 5,000 times larger.

#22. The U.S. has spent \$557 Billion dollars in interest on interest on the national debt in the last fiscal year of 2018.

#23. If the average rate of interest on the U.S. government debt rises to 6%, we will be paying out more than a Trillion dollars a year in interest on the national debt.

#24. According to Article 1, Section 8 of the U.S. Constitution, the U.S. Congress is the one that is supposed to have the authority to **“coin Money, regulate the Value thereof, and of foreign Coin, and fix the Standard of Weights and Measures”**. So exactly why is the Federal Reserve System doing it? THIS IS THE MOST SIGNIFICANT QUESTION THE CITIZEN NEEDS TO KNOW WHY SO! The American people need to wake up about the Fed.

#25. There are plenty of alternative financial systems, but at this time there are 187 nations that belong to the IMF that have a Rothschild-controlled central bank. This obviously is not a coincidence.

**The central message of this series is to show how and why the U.S. is a debt-slave to a system owned and controlled by the [Jesuit-Vatican – UK Bank of England (House of Rothschild) – Black Nobility of Europe].** President Trump’s primary agenda is to remove the Rothschild-owned Federal Reserve Bank. Regardless of all his other decisions or unaddressed issues and campaign promises, the Federal Reserve is the most important issue President Trump has to deal with. All other issues will slowly fall into step once the Federal Reserve Bank is eliminated. Unfortunately, President Trump is fighting the Deep State, which dominates the Democrat Party, and to a lesser degree the Republican Party as well. It is the focal point on whether this country survives or goes into the waste basket of oblivion as other nations and empires previously have gone.

Chart 1 reveals the linear connection between the Rothschild’s and the Bank of England, and the London banking houses which ultimately control the Federal Reserve Banks through their stockholdings of bank stock and their subsidiary firms in New York. The two principal Rothschild representatives in New York, J. P. Morgan Co., and Kuhn, Loeb & Co. were the firms which set up the Jekyll Island Conference at which the Federal Reserve Act was drafted, who directed the subsequent successful campaign to have the plan enacted into law by Congress, and who purchased the controlling amounts of stock in the Federal Reserve Bank of New York in 1914.

The J. Henry Schroder Banking Company chart encompasses the entire history of the twentieth century, embracing as it does the program (Belgium Relief Commission) which provisioned Germany from 1915-1918 and dissuaded Germany from seeking peace in 1916; financing Hitler in 1933 so as to make a Second World War possible; backing the Presidential campaign of Herbert Hoover ; and even at the present time, having two of its major executives of its subsidiary firm, Bechtel Corporation serving as Secretary of Defense and Secretary of State in the Reagan Administration.

The head of the Bank of England since 1973, Sir Gordon Richardson, Governor of the Bank of England (controlled by the House of Rothschild) was chairman of J. Henry Schroder Wagg and Company of London from 1963-72, and director of J. Henry Schroder, New York and Schroder Banking Corporation, New York, as well as Lloyd's Bank of London, and Rolls Royce. He maintains a residence on Sutton Place in New York City, and as head of "The London Connection," can be said to be the single most influential banker in the world.

## The “Q” Factor

Below is a few “Q” post, one dated February 19, 2019; it serves as a reminder of what I have been saying in this series. This post is one of the longer posts #2807. Followers of “Q” have been growing at a rapid pace as the post just below this one. “Q” is telling the “Q” followers, that “Q” is getting attention everywhere now. “Q” is pointing out the corruption of the Obama administration, and the need to investigate Obama’s crimes in office. “Q” has been increasing “Q” posts in greater length and specifics.

“Q” posts initially, from late 2017 until late 2018 were cryptic in nature, likely intended to raise and get our attention and create curiosity and interest about who and what “Q” is about. Later “Q” posts, particularly since late 2018, have been more detailed, but very often refer back to earlier posts with coded messages, numbers, date stamps, which at first read are meaningless. There are individuals who have been successful in decoding the intricate “Q” posts. Everything about the posts are multi-layered, meaning they are interconnected in content, often linked to specific news reports with symbolic terms, numbers, dates, very sophisticated, indicative of individuals trained in the coding of messages.

With all that, there is concern that fake “Q” posts and imitators of “Q” are working on behalf of the Deep State to undermine the real “Q”; to warn off followers of the “Q” posts, and we are seeing “Q” being validated by his “Q” posts integrated with tweets of President Trump, these confirm the close relationship, even when the President himself is in the air over the U.S. or International long distance have been designated as “Q+ 0” or simply “Q”.

Since President Trump’s tweets are synchronized with “Q” posts and drops, the Deep State is frustrated in attempting to send fake “Q” posts. There are several good sites to keep up with on “Q” posts. These include “The Great Awakening” – <https://www.douknowq.com/134308/Q-Updates.htm>, “Serial Brain2” – <https://militarytribunals.org/video/serialbrain2-the-trump-effect...>, “Praying Medic” - on Twitter.

The “Q” posts in late February, 2019 have recently rolled over to now number just over 3000 by March 8<sup>th</sup>, 2019. Here is post #2901 on the next page. In “Q” post #2901, we see “Q” is using a meme. This is a new word to many of us; a “meme” is a virally-transmitted cultural symbol or social idea. The majority of modern memes are captioned photos that are intended to be funny, often as a way to publicly ridicule human behavior. Other memes can be videos and verbal expressions. Some memes have heavier and more philosophical content. The world of memes (which rhymes with 'teams') is noteworthy for two reasons: it is a worldwide social phenomenon, and memes behave like a mass of infectious flu and cold viruses, traveling from person to person quickly through social media.

The use of “memes” complicate the Deep State’s efforts at censorship, since visual images do not get blocked as words. Many reports that I get on the Internet, when I either go to save them or share them, get blocked with messages stating, “This page cannot be saved”, etc. I keep an informal list of those reports and news stories that receive such messages to determine what issues are being blocked. Certain news sites are blocked all the time, and others, specific content get blocked.

When the real TRUTH re: Russian collusion is right in front of you but the FAKE NEWS media prevents public awareness.

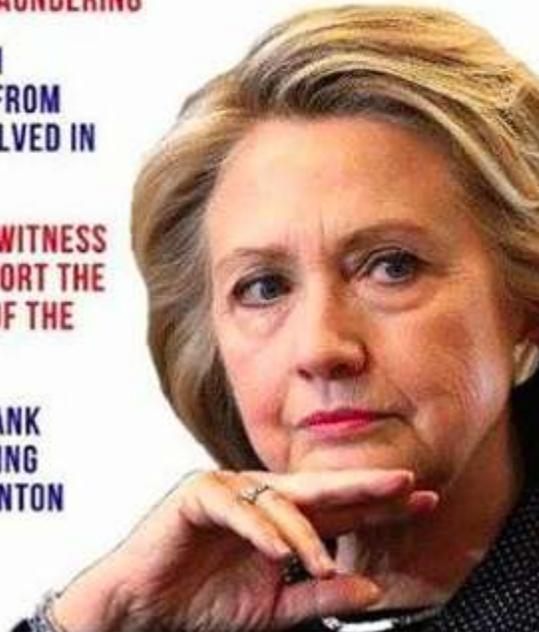

Conformity and Behavior.

Q

## **6 EXPLOSIVE URANIUM ONE FACTS: SECRETARY CLINTON BETRAYED AMERICA**

- 1. THE FORMER HEAD OF RUSSIA'S URANIUM COMPANY MADE FOUR HIDDEN DONATIONS TO THE CLINTON FOUNDATION TOTALING \$2.35 MILLION**
- 2. BILL CLINTON BAGGED A \$500,000 SPEECH IN MOSCOW PAID FOR BY A KREMLIN-BACKED BANK**
- 3. THE FBI HAS UNCOVERED EVIDENCE THAT RUSSIAN NUCLEAR INDUSTRY OFFICIALS ENGAGED IN BRIBERY, KICKBACKS, EXTORTION AND MONEY LAUNDERING**
- 4. THE CLINTON FOUNDATION RECEIVED \$145 MILLION FROM FOREIGN INVESTORS INVOLVED IN THE URANIUM DEAL**
- 5. FBI AGENTS HAVE AN EYEWITNESS AND DOCUMENTS TO SUPPORT THE MOST EXPLOSIVE PARTS OF THE URANIUM ONE STORY**
- 6. CLINTON MEGA DONOR FRANK HOLMES LIED ABOUT SELLING URANIUM ONE BEFORE CLINTON APPROVED THE RUSSIAN TRANSFER**

The evidence grows by the day as “Q” reveals the corruption, fake news, and raises questions to the public awareness. President Trump’s primary method of getting his message out is by Twitter. The mainstream media networks are intentionally negative, and news analysis shows that 90% of news reports on the President are all negative. “Q” posts are increasing in frequency and content. They are becoming less cryptic and now more provoking awareness so the viewer can to ask questions about many topics such as the one above and the real Russian collusion. The two below illustrate what I am observing.

Below is “Q” post #2801. He has listed 42 mainstream media and Internet web site noting and or mentioning the posting by “Q”. “Q” is pointing out to folks that “Q” is for real and messages are becoming more pointed and suggesting questions the public needs to be asking and demanding answers from their elected officials. He is raising important issues. Above, fifth line from the end states:  
*“WE CANNOT AFFORD TO LOSE THIS RARE OPPORTUNITY TO RIGHT THE WRONGS”*. This is affirmation of what I have been saying in this series.

“Q” interpreters and decoders do decode “Q” posts, often linking back to the President, such as date stamps, predictions, past and future events, or to previous “Q” posts, implying that “Q” and President Trump’s “tweets” on Twitter are closely connected. The collective evidence firmly supports “Q”’s credibility for knowledge and accuracy of the information. The reader could see this as some sort of “Batman and Robin” duo crime fighting heroes. “Q” posts sometimes have multiple coded messages, as revealed by “SerialBrain2”, a “Q” decoder.

Q

This is “Q” post #2777, referencing to the new Attorney General Barr and suggested dialogue to Robert Mueller. All three of these posts were taken from various internet sources, and as they multiply like rabbits, the public is being educated to the fact the Trump witch-hunt was a diversion from the real criminals and how the DOJ, including the FBI were covering for themselves and protecting their candidate Hillary R. Clinton. As more and more citizens begin to get curious about this phenomenon, and get around the mainstream media fake news, the objective or goal is to build interest and the anticipation of “Q” coming public. In related phone conversations, “Q” several times said, *“You will be surprised who you are talking to”*, an inference, he is someone of importance.

"Mandate was clear - verify and investigate reports of possible foreign collusion between President & Russia." "What justification existed to effectively launch a massive domestic / foreign surv campaign against the President (pres elect / president) and members of his transition / campaign team?"

Mueller to Barr:

"Steele dossier along w/media corroboration of those findings."

Barr to Mueller:

"Was the Steele report a 'trusted and verified' report per Intel to continue especially considering the funding party was the opposition party?"

Mueller to Barr:

"Those facts were never taken into consideration." "FISC granted auth to conduct based on conclusions presented."

Barr to Mueller:

CLAS 1-99

Q

Disinformation has muddied the waters concerning "Q". It became necessary for "Q" to validate or authenticate recent posts, so as "Q" followers needed a morale boost! As a reminder, "Q" is for real. You can expect the unveiling of the identity of "Q" in the near future. I still am of the opinion "Q" is John F. Kennedy Jr. Remember, he knows the identity of his father's killers, and so his need for secrecy is a must. Dr. A. True Ott revealed that information in the '*Gemstone Files*' that he gave to John Jr. two weeks before the downing of his plane over

Cape Cod. He has had the means over the past 19 years to gather all the information of the global cabal behind the assassination of President Kennedy. All links lead back to the CIA-Jesuit-Vatican-Rothschild Banking Empire, and their operatives that carried out the actual assassination. "Q" is validating and confirming the work of his series of posts.

The web site of Steve Quayle posted a report that essentially debunked "Q", and included an interview with a retired Army Brigadier-General who had served as the deputy commandant of GITMO over a decade ago. The report debunked the story of the so-called prison barges being at the Detainment Center and War Tribunals. The problem with that is that the same report of prison barges was also reported to be true on Fox News, and I shared the report in an early segment in this series as well. The story was also posted on the web site "All News Pipeline" February 17, 2019. Here is a snapshot of the post. Keep aware of this important fact that the War Crimes Tribunals are conducted under super-secrecy and no mainstream media coverage.

We are told all important information on the War Crimes Tribunals will be made public at an appropriate time. Despite efforts to maintain secrecy does not preclude potential leaks and drips by intent. Steve Quayle as a web site is well known for its use of the "sensational", stories that often grab attention and later prove to be little or nothing of real substance. I can share a personal story in which I took Steve Quayle to task. Eight or nine years ago, Steve Quayle posted a story about "FEMA" prisoner railroad cars sitting on a remote rail siding in Montana. He said he climbed into one of these prisoner railroad cars, and described the chains and shackles inside, supposedly to confine arrested prisoners. From his description of these railroad cars, I was able to accurately identify them for what they really were.

I sent Steve Quayle an email and pointed out to him that every summer railroads [BNSF in this case] have to find storage to hold their empty "auto-racks" when manufacturers of autos and trucks are shut-down for plant model changeovers. Railroads keep idle branch lines for such a reason to store their empty "auto-racks" until automobile production resumes. "Auto-racks" are 85-feet in length, most tri-level decks that hold upwards of 15 to 18 passenger vehicles per auto-rack. The "restraining" cuffs and chains Steve stated were nothing more than tie-down stanchions anchored to the decks of the railroad cars, used to tie-down the vehicles in transit from plant to delivery terminals. He noted that the cars had small air gaps in the side to permit prisoners to breath. This is plain and simple imagination run amok. These "auto-racks" have corrugated fiberglass side panels between decks to shield brand-new autos and trucks from rock-throwing vandals during transit that occurs in ghetto urban areas.

ANP Exclusive! Retired US Brigadier General Warns Of Major Holes In 'GITMO Mass Arrest & Military Tribunal Conspiracy Theory' As Nancy Pelosi Threatens Gun Confiscation & Martial Law - Waiting For The Mass Arrests Of 'Deep State Traitors'? Don't Hold Your Breaths!

beware\_gitmo\_psyop.jpg

By Stefan Stanford - All News Pipeline - Live Free Or Die

Over much of the past two years and ever since President Trump got into office, rumors have filled the internet of military tribunals being held for globalist, deep state traitors who've sold out America for a 'new world order' and that those who've committed very real treason against America would be held accountable by the US military for their crimes against the American people.

The names of those mentioned by some have included not only Hillary Clinton and Barack Obama but James Comey, Huma Abedin, Loretta Lynch, Rod Rosenstein, Andrew McCabe, John Podesta, Robert Mueller, James Clapper and John Brennan amongst others, the very 'establishment' and 'deep state' under Obama who long ago sold away America for 'globalism'.

And while we'd love to share with you some great news that in fact, such tribunals are indeed being held at Guantanamo Bay this very moment and it'll soon be announced that they have all been found guilty and a date will soon be set up for them to be held accountable for their crimes of treason against America, we'll instead ask you to NOT hold your breaths after receiving the following stunning information from GITMO's former base Commander who is still well connected and stays informed on base happenings.

As we'll see in this story, ANP was recently contacted by Steve Quayle who is a friend of Brigadier General Gregory Zanetti, who was deployed to Guantanamo Bay in 2008, where he served as both Deputy Commander and Commander Joint Task Force Guantanamo (JTF GTMO), and who informed Steve that a recent viral story about military tribunals of deep state traitors

at GITMO is full of holes and should not be fully trusted. And while many of us within the independent media at one time or another have speculated on the possible mass arrests and military tribunals of those within the 'deep state' who've committed treason against America (simply wishful thinking?), General Zanetti also told Steve that he will apologize if he is incorrect in his analysis that we'll look at below.

With President Trump declaring a national emergency to build the wall leading to Democrats threatening to do the same thing on 'gun control' if they ever get back into the White House, hinting at the tyranny that lays ahead for America should they EVER get back into office again, first read the words of Pelosi when thinking about what 2021 America might look like should the Democrats win the presidency in 2020 before we go into this GITMO 'conspiracy theory' of mass arrests and military tribunals.

"A Democratic president can declare emergencies, as well," Pelosi told reporters in the Capitol.

"So the precedent that the president is setting here is something that should be met with great unease and dismay by the Republicans."

Pelosi noted that Thursday marked the one-year anniversary of the shooting at a high school in Parkland, Fla., that left 17 students and faculty dead. She argued that the real national emergency is not illegal border crossings, but gun violence in the U.S.

"Let's talk about today: The one-year anniversary of another manifestation of the epidemic of gun violence in America," Pelosi said. "That's a national emergency. Why don't you declare that emergency, Mr. President? I wish you would."

"But a Democratic president can do that."

Brigadier General Zanetti was contacted by Steve in reference to a recent story which argued that one of the biggest court cases in US history is secretly going on at GITMO this very moment, with George W. Bush 'flipping' against Dick Cheney and the deep state about 9/11 in testimony that would allegedly bring down top deep state insiders from the Obama administration.

Also claiming within the story that one of the alleged conspirators of 9/11, Khalid Shaikh Mohammad (KSM), would soon turn against the CIA and spill all the beans about their involvement, as we read these extremely important words of warning, we should keep in mind that they were written by a Brigadier General who actually Commanded GITMO.

We were conducting tribunals back in 2008. The big one was for KSM and four others....all done simultaneously. When the judge asked how they pled, KSM stood up and said, "I plead guilty! I did all of it and much more!" Or words to that effect! Then, the other four, stood up (as their attorneys tried to keep them seated) and said, "I am guilty, too! You must kill me!!" Soon, their

attorneys were objecting to their own clients' pleas. The court went crazy. Everything was adjourned.

The point is nothing is "normal" when conducting trials for detainees. These trials have dragged on for years. That has proven to be very profitable for the lawyers. And yes, the defense lawyers are paid for by liberal and Islamic groups. That is old news...and should not surprise anyone.

To say G.W. Bush has talked with President Trump and has "flipped" isn't credible. (What evidence? And, why would he know? He is just some Internet guy with no credentials. Who are his sources? And why would credible sources go to him? Really?) Oh, and now GWB is confessing everything about 911? And everyone involved is going to be arrested and taken to GTMO? Look, GWB has millions of dollars and access to the best lawyers in America. He is not confessing anything. And, no, I personally do not believe the 911 "official" story. And, yes, there is far more to 911 than we will likely ever know. And, no I don't believe any of the guys he put in his article are clean. But that doesn't translate into a GTMO conspiracy. Sorry for the rant.

Anyway, with all that said. Can a government do whatever it wants? Sure. Someday, could GTMO be used for tribunals for the "bad guys"? I guess so. Is there any credible evidence today that this is about to happen? No. It's speculation. Conjecture. His analysis is based on faulty conclusions based on little knowledge of GTMO, its facilities, its history, and its constraints.

Anyway, I'll wait to hear from (redacted). He may know more than I do. If I am wrong, I will be the first to apologize to you and (redacted). Truth is what you have always been about, Steve. I want to help in that quest. Currently, however, their GTMO analysis is a bucket full of holes, IMO.

In the posted article on Steve Quayle's web site and "All News Pipeline" although appear to be credible, but neither are timely or credible. Neither web site in eighteen months has ever mentioned the subject of "Q" and "Q"Anon posts. Steve Quayle site is known for its

posting the sensational, bizarre, and bordering on the sci-fi categories. I remembered this post well and thought it might be an intentional hit piece to refute “Q” and “Q” followers.

The fact that retired Brigadier-General Zanetti was Deputy Commandant ten years ago is virtually irrelevant today as old news, and mentions nothing about the President Trump \$250-million investment in the facility upgrading at GITMO, or recent deployment of approximately eight U.S. Army Reserve and National Guard Military Police companies, along with 1,000 U.S. Marines that went to GITMO in recent months ago would suggest Steve Quayle and Brigadier-General Zanetti are unaware of what has been taking place in recent months.

The retired Brigadier-General since January of 2009 has been employed as a self-employed investment adviser – Zanetti Financial LLC, and far removed from GITMO. The U.S. military units [Reserve and National Guard] that were activated for 401 days (the specific length of activation which does not require military payment for family health and dental benefits.) I can assure you their deployment is not for R&R, or rest and recreation for those of not familiar with military jargon shorthand!

Since this story is the **Biggest Story of the Year, or Century**, I will not hesitate to call out those interested in debunking “Q” or “Q”Anon posts if they do not pass the smell test of legitimacy. Should I encounter evidence to suggest the “PLAN” has been derailed, I will share that as well. In the meantime, I urge you to keep the President in your prayers. As recent as February 28<sup>th</sup>, “Q” has stated:

"Q" anon has sounded the alert.  
BIG happenings coming within the next 21 days.  
It is time for them to deliver.  
Possible things to look for  
Large Data Dumps  
Rosenstein and Mueller Out  
Declass. of Documents  
New Supreme Court Justice Nominee ?  
Unsealing of Indictments and Arrests

Let's just see what happens. I am sure there will be a few unexpected moves. We need to be mindful that the list of sealed indictments has risen by some 11,000, current official list follows in a few pages. To bring readers up to speed, this includes a compilation of (Q) Anon posts and my own related research.

President Donald Trump has done all he can at this time. The Deep States is trying to take him down. In his efforts, he has recovered about \$\$14-Trillion in wasted taxpayer funds and is set to return those funds to the people.

Donald Trump has essentially shut the Federal Reserve down, as verified by Robert David Steele and (Q) Anon and trying to return the printing of U.S. currency by the U.S. Treasury

as directed by the U.S. Constitution backed by gold, silver and platinum. Original U.S. Notes are the only REAL and AUTHENTIC currency. All others are fraud-based.

The only thing standing in his way is the Deep State. \$14 Trillion recovered by fraud and waste prevention. The Military / Industrial complex is about 50% waste. So what is the problem with Trump attempting to use about \$5.8 Billion from a budget that is far larger...??? (\$786 Billion in 2018 alone) or from the ICE / DHS Border Security funding, which was in part, already appropriated for the purpose of "Border Security".

The Democrat Party agenda is a hoax. Open your eyes people and see the truth. The only reason the Democrats are against a stronger border is they stand to reap tremendous benefits from a weak border, a.k.a. more Democrat voters who support more Democrat agenda - more government freebies, more socialism, etc. Look at the real words spoken, as when any Democrat (AOC for example) is asked how they intend to pay for the Socialism, they DEFLECT..!!! No answers given. Unless its - MORE TAXES ON THE RICH. Look at the reality of voter fraud in California alone - over 2.5 million unregistered illegal votes for the DEMOCRAT party, as uncovered by Judicial Watch and others.

Okay, let's take the rich, the less than 1% of 1% and eliminate them from the picture. That leaves about 150 million TAXPAYERS that are supporting the rest of us. Including AOC... How does she get her picture...??? From coffee shop waitress.. to a New York congressional representative?? 150 Million are supporting themselves and another 165 Million. What happens when you break the backs of the 150 Million.?? There is no more taxation available.

The truth, Franklin D. Roosevelt knew the truth.

Trump is poised to arrest half of congress, the treasonous half.

Congress has committed treason against the people for about 147 years, going back to the Act of 1871, the Federal Reserve Act of 1913, and others. For those of you mortified that Trump declared a National Emergency, the UNITED STATES INC has been operated on a STATE of EMERGENCY since 1933. Various other presidents also used National Emergencies to cover for various actions of the state. The STATE of EMERGENCY enacted in 1933 was never repealed. Meaning we are STILL in a NATIONAL STATE OF EMERGENCY from that time.

Write or call your congressperson. Inform them that you are aware of the treason, money laundering, misappropriation of taxpayer funds, and congressional malfeasance that has occurred for at least 68 years. Inform your congress-person that you will fully support Trump and his arrest and charges of malfeasance of office that most congress-persons can be charged with.

Write or call your congressperson and inform them you take issue with the fact that Trump is being scrutinized over anything and everything from childhood, while Hillary Clinton and Adam Schiff are being ignored for crimes against the American people, malfeasance in

office, and racketeering / money laundering, misappropriation of taxpayer funds. Yes, sorry to break it to you lefties, Adam Schiff's malfeasance in office / money laundering goes back to FusionGPS and the Clinton money laundering machine.

Officially, Joe Banister has come on Alex Jones / NewsWars.com illustrating how the American people have been hoodwinked into a fraud and a scam. Joe Banister was with the IRS for 12 years, and now gives lectures about the illegality of the IRS and its claims "Everybody Owes Taxes." Nobody owes taxes. Period, simple. Especially if you ply a trade with your hands, and use your hands to make a living. You are EXEMPT..!! (Ya, I know, try telling that one to the IRS)... On a lighter side, the IRS just 'forgave' over \$11 Million in back taxes and O'Bamster Care taxes. (the ACA fine for not having health care).

Trump needs our help. Guns and bullets won't win this war. Only a concerted effort by the people will win this one. Put on your yellow vest. Call your congressperson, or write them. Let them know the fraud and money laundering in halls of congress is over.
